## DECEPTION Is a comprehensive independent study that includes:

- 17 Quotes from expert witness Dr. Pillay exposing medical flaws in P-Con ruse.
- 16 important questions that deserve coherent answers from P-Con believers.
- 17 Large graphics illustrating essential facts & evidence debunking the P-Con
- 37 Expanded definitions of key terms explaining P-Con diversionary tricks etc.
- 1 Detailed testimony from HDG, s personal nurse who kept the medical record.
- 84 Small graphics supporting text details expressed in P-Con fraud.
- 67 Rebuttals to typical bankrupt P-Con propaganda "None So Blind"
- 5 Transcribed testimonies of Sanyasis who witnessed end pastimes.
- 9 Other transcribed video testimonies from senior associates of TKG.
- 37 specific examples of logic fallacies used to promote the P-Con.

"As the qualities of a nearby object are reflected in a crystal, **one similarly takes on the qualities of a person with whom he associates.** Therefore, in order to increase one's devotional sentiment in his own line, a wise person should take shelter of those who have the same temperament." -Srila Bhaktivenode Thakura

**QUESTION:** Why are you so willing to accuse TKG of murder when there is NO reasonable explanation for how he did it? Why do you believe Nico's history of nefarious selfishness and deceit would not also infect his credibility regarding the P-Con? Do you believe it is proper behavior for Nico to verbally assault everyone who dares cross-examine his integrity, agenda, or accusations? The two principal suspects have passed on so what is the real agenda behind the effort to promote this controversial issue that no experienced lawyer will touch?

## Socratic Method Exposes P-Con Fraud Series:

Based on asking and answering questions to stimulate critical thinking and to draw out ideas and underlying presuppositions.

1. This book repackages the **same contrived evidence**, misrepresented facts, and unfounded, agenda driven allegations already fully exposed in the **DECEPTION** study.  
2. This author makes many unsupported and irrelevant statements that he expects the unsuspecting reader to fully support even though his history lacks any personal integrity.  
3. Only very poorly informed individuals or those whose intelligence has been stunted fail to perceive the avalanche of **absurd allegations made in this offensive diatribe!**  
4. Nico's horrendous reputation is well established and overlooked here based on the argument of accepting gold from a filthy place. But there is no gold here at all. It is the epitome of insulting Vaishnava aparadha that only a sick mind could dream up.

# Fabricated Whisper Evidence!

**CAE Lab**, owned by Jack Mitchel, is the star audio forensic sleuth for **This PROVES NO P-Con integrity!**

the P-Con. When his credentials were examined so many suspicious anomalies turned up it took five pages in the book **DECEPTION** 5.3.2. to expose them all. It appears Jack was a clever opportunist who wouldn't miss a chance to milk Nico for thousands to generate reports and graphs to certify whatever Nico wanted. Nico in turn inflated Jack's credibility by telling us he had \$250,000 worth of equipment -KGBG p171 although Jack states: "My system costs probably between \$50,000 and \$55,000" -KGBG p171 Nico expects his audience to just accept what he says even though **DECEPTION** provide numerous examples of how he hides, distorts, and even fabricates evidence that does not exist. The critique on the CAL lab was so damaging Nico desperately attemptsto discredit it with more deceit. -SPTD 225, 845 There is no sense in arguing with a pathological liar. The PBS show FRONTLINE investigated the company who **sold** Jack Mitchel his fake credentials and confirmed they had been doing it for so many years they were forced to shut down circa 2012.

Ed Primo from [Primeauforensics.com](http://Primeauforensics.com) has 35 years of experience and explains how real professionals work: "I tell my clients to NOT give us information about the case until we are done with our testing process... because bias has to stay out of the lab Many client attorneys are ready to dump a bunch of information on us, depositions etc...it's best to keep all unnecessary information out of the lab so our bias remains very low so, then if asked under oath... there is nothing to attack us on"

**But this is what the No Truth-Team did:** "Tom Owen (was given a copy of *Someone Has Poisoned Me*,) a tape transcript, & the location of the three different poison whispers" -KGBG 178

**Blatant Falsehood!** "Three different poisoning whispers have been forensically, scientifically VERIFIED by a long list of audio forensic experts in their laboratories. -SPTD 625 **Who is Nico referring to? Below is what his so-called experts had to say.**

**#1 "The poison is going down".**  
Nico claims this was: "verified by many audio forensic experts" -SPTD 510  
TKG testified that he said: "The Swelling is going down"  
**Who Verified what Nico Claims?** What their experts really said was:  
**CAE Jack Mitchel:** "the /p/ in poison cannot be exactly located" and  
"As each version presents a more expanded segment, the /poi/ sound should become more evident." -SHPM 300  
**OWL:** "I swear all of its going down"-KGBG 180 Swear sound a like "Swell"  
**J.P French:** "It's Going down" (Especially Unclear) -KGBG 176  
**Explain:** How could HDG drink hot milk while laying flat on his back? What was the milk "Going Down" when HDG did not sit up for 7 minutes?

**#2 "Is the poison in the milk?"** What was said after Jayapataka asked Srila Prabhupada about the plan for better health was: "It's NOT part of the treatment."  
Three engineers agreed the second word was "NOT".  
**OWL:** Unintelligible -KGBG 180  
**J.P French:** "It's NOT poison" (Unintelligible) -KGBG 176  
**JBR Technology:** "That's NOT poison in the milk"-KGBG 184  
**George Blackwell:** "It's NOT poisoned milk." -KGBG 64  
**Explain:** How did the audible NOT, get lost in "Poison"?"

**#3 "Poisoning for a long time..."**  
This is buried in 60 seconds of background noises and talking. It is so unclear that KGBG movie does not play it for listeners!  
**J.P French: Wholly Unintelligible** -KGBG 176  
**Owl:** "It's NOT Poisoning" -KGBG 180  
**Explain:** Why wasn't this audio played?

**QUESTION:** Why do you blindly accept studies done on hair samples that were NOT properly retained and preserved according to laws intended to ensure that evidence does not environmentally degrade or get maliciously tampered with? Why do you accept unreasonable statements about hair studies never confirmed by at least one alternative independent source? Why to you trust the people who promote the P-Con when they intentionally misrepresented what Dr. Morris reported and his inexperience in using the NAA process to study hair?
