Questions the Poison Conspiracy Anarchists Refuse to Answer

The Socratic method for uncovering the truth is to ask revealing questions. The book DECEPTION exposes a litany of inconsistencies in the Poison Conspiracy and as long as those promoting this charade continue to avoid addressing the relevant question that prove nobody could have poisoned Srila Prabhupada the way it has been alleged, it proves their agenda is malicious. The following questions is all and honest individual needs to consider to fully dispose of this mendacious rumor.

“Our greatest pretenses are built up not to hide the evil and the ugly in us, but our emptiness. Facts do not cease to exist because they are ignored.” - Aldous Huxley

Gold from Filth or 100% filth? Origin of the P-CON!

Origin of Poison Conspiracy (P-CON) = A Very Troubled Nico Kuyt

Formerly known as “Nityananda” (Name revoked due to offenses!)

Nico Kuyt has such hatred for ISKCON he contrived both the RtVik-Charade and the P-CON. In both cases these fantastic deviations began with a fabricated controversy over a single word. In the case of the RtVik nonsense it all began with the word “henceforward” used by TKG in the July 9th letter. In the case of the poison conspiracy, it all grew out of the usage of the word “poison” which was used a lot by Srila Prabhupadas

from mayesvara dasa cont...

when he preached.¹ It was also used a lot when his care givers were discussing how his kidneys and liver were failing. When these organs failed to remove the impurities in his blood which usually gives life his own blood became a deadly poison.

Both of these contrived stories are extremely offensive because they suggest that Srila Prabhupada was grossly incapable of giving clear instructions to his disciples. If he intended to reverse everything he taught for 12 years to the RtVik-Charade, he would have provided elaborate instructions about it. He would explain why he wished to do something that was never done before, violated scriptural instructions, and how he wanted the new system to be set up. He most certainly would not cryptically convey that in a single page letter composed by his disciple Tamal Krishna Goswami!

In the same way, if Srila Prabhupada suspected that he was being poisoned by the very devotees he had invested so much trust in, he was fully capable of having them removed from his immediate service. But he didn't do that either because this is another hallucination from the reality challenged Nico Kuyt. Both of these examples clearly reflect that the real poison comes from the ISKCON-Bashers who promote these completely unfounded ideas. They originated from a very unstable individual seeking revenge for being dismissed from a duty² that was way beyond his emotional capability to perform.

Srila Prabhupada never lost the ability or wisdom to properly assess the situation and give appropriate instructions to see to it that his wishes got properly carried out! - P-CON Antidote/Lampoon, p.16

What You NEED to Know about Nico Kuyt

<https://jagannatha.com/what-to-know-about-nico/>

Nico's own daughter, Suddha Sattva, describes her father as one who suffers from a Narcissistic Personality Disorder, and everything after that is even more shocking, ugly and evidence of a very sick mind. Those who believe there was a P-Con should read this compilation to understand what Suddha Sattva concluded as follows:

"Nico's grandiose fantasies at the moment revolve around the theories of Srila Prabhupada's poisoning. He dreams that he will be the big shot that solves the case and puts the poisoners in jail. He thinks he is taking on the GBC and that he is a threat to them."

Nico's Role Model: A Disgraced Holocaust Denier Historian

Harry Barnes is a history revisionist that Nico praises and idolizes. In the early 1960's Mr. Barnes began to boldly assert that the Holocaust in Germany never happened and that the Germans did not systematically kill six million Jews! The fact that the father of the Holocaust denial movement is presented as the inspiring force to justify the pursuit of the P-Con should give everyone pause. The ones promoting this rumor are following in the footsteps of those who endorsed the Ku-Klux-Klan and the Neo-Nazis'. - P-CON Antidote/Lampoon, p.10.

No Decency! Shameless!

Nico has obsessed over Tamal Krishna Goswami and written hundreds of pages defaming him. Yet when the public is informed about Nico's train-wreck of a life consisting of running from the law, being summoned several times to court for inappropriate behavior, and the disgrace he has been as an abusive father of nine children from several serial marriages, he cries foul play! The public is entitled to know how dysfunctional the author of all this malicious propaganda is because it also explains why none of it makes any coherent sense!³

1 To get some sense of how often the word "nectar" shows up in the devotee lexicon, a query was done using the Vedabase. Only the books, correspondences and audio transcripts Srila Prabhupada left behind were included in the search. What was discovered is that the word nectar was used 1902 times. This gives us a benchmark to then make a similar query with the word "poison" using the same parameters. When we do what we discover is that the word poison shows up 776 times or $(77600/1902 = 40.79)$ 41% as often as the word nectar. What this illustrates is that the word poison is used quite a bit in devotee parlance and for the most part, when it is used, it has nothing to do with homicide. - DECEPTION Section 6.1.1.3 Usage Frequency of Nectar V Poison

2 New Orleans Temple President Circa 1972

3 Compare Authors: It is reasonable for people who do not know me to question what my background and reputation is. At the risk of being accused of vanity, this illustrated matrix provides the relevant details required to do a comparative study between Nico's history and my own. <http://jagannatha.com/compare-authors-credibility/>

from mayesvara dasa cont...

Nico Is The Alex...

<http://jagannatha.com/nico-is-the-alex/>

Alex Jones is a loud-mouth sensationalist who has made a career from promoting outrageous conspiracy theories that very deprived individuals believe. Nico is the ISKCON version of Alex Jones. He is a social renegade and this entry uses Alex Jones to show how foolish Nico's supporters are.

Hired Crooks!

There has been no unbiased blind cross examination or testing on anything. Nico clearly has an agenda as is evident from his long history of attempting to prove his allegations dishonestly. A good example of this is the so-called evidence he attempted to purchase from dishonest organizations like the "*Great Smokies Diagnostic Laboratories. (GSDL)*"

The GSDL is another one of the so-called scientific authorities cited as experts used to evaluate the presence of cadmium in the hair. However, this so-called expert was later exposed for running a quack laboratory. They were sued, declared bankruptcy, collapsed their business, and then regrouped under a completely different business name so they could keep cheating new unsuspecting clients! - P-CON Antidote/Lampoon, p .38

Nico Gets Caught Lying under oath in Superior Court Ca!

In 1983 Nico was called to testify about his role in the abduction of the minor Robin George. Although he was under oath, on the witness stand and in an Orange County Superior court the Honorable trial Judge Jackman presiding over the trial described Nico's testimony as follows: "First and foremost, this court must state that in its view the conduct of defendants toward the plaintiffs was outrageous. Furthermore, this court was struck and strongly suspects the jury was struck by the almost universal lack of candor... No one, least of all this court, likes to hear from witnesses who only coincidentally tell the truth." -DECEPTION 14.1.14 Nico Kuyt exposed for Perjury in Court

Nico Burnt-Pie No-Logic Exposed Nov 2022

<http://jagannatha.com/nico-burnt-pie-logic/>

One of the most glorified qualities of the Neutron Activation Analysis (NAA) process that was used to study Srila Prabhupadas hair is that it does NOT harm the samples studied. However, Nico tells us that the hair samples he claims had the large cadmium reading were DESTROYED when Dr. Morris tested them. This means either Dr. Morris was incompetent, or Nico isn't telling us the truth about what happened to those hair samples.

Projection Reflection

Unable to provide convincing answers to these P-CON questions, Nico relies on his usual ad-hominem, character assassination diversions to avoid them: "*The (GBC) employed the eccentric, snarling, hyperactive, combative, and arrogant Mayeswara das to produce yet another whitewash denial cover-up, characterizing the "poison theory" as perpetrated by low persons with a hate agenda. Leaks confirmed, md extensively worked with the GBC which also funded him*" -Srila Prabhupada's Triumphant Departure p.557. The only leak going on here is in Nicos head. This is another example of how Nico feels it is acceptable to make up and publish fantastically fictitious stories because he heard them from Mr. Unknown, his invisible friend who "Leaked it to him!"

Poison Conspiracy Damage Control

<http://jagannatha.com/poison-conspiracy-damage-control-1/>

Nico had a lot of damage control to do after the release of the movie/book DECEPTION. He could not address the hard questions so he resorts to name calling and spewing whatever his sycophant followers want to hear... irrelevant of what is true. This chart gives examples of that as well as a dozen other examples of the damaging comments made about the P-Con from other prominent individuals.

Arrogant disregard for senior Sadhu/Devotee community!

Nine different individuals attempted to give Nico prudent advice before he embarked on his P-CON fantasy campaign. Instead of listening to those mentors, he was compelled to ignore all of it and demonstrated how selfish and determined he was to foist his huge confabulated Poison Conspiracy ruse upon the devotee community. - P-CON Antidote/Lampoon, p 13

"For one who explains the supreme secret to the devotees, devotional service is guaranteed and at the end he will come to Me."

from mayesvara dasa cont...

Truth Team means Goof Team!

So many examples of bad research, intentional fraud, misquoting and “*Damn the objections, full speed ahead*” are illustrated that it was necessary to remove the self-proclaimed honorarium “Truth Team” that is repeated used. The more appropriate moniker “Goof Team” is used to refer to those who have shamelessly foisted this travesty of logic and reason onto the Vaishna community. - P-CON Antidote/Lampoon, p 31

Truth is an Unfamiliar Concept to Nico

Nico’s is so deranged it appears he believes he is being truthful even though we have provided numerous examples of how he shows no ability to understand what the word “Truth” means. His statement provided below illustrates just how confused he really is.

“I have tried my best to present all materials accurately and truthfully as a service to Srila Prabhupada and for his pleasure, and for the service of his followers who are interested in this factual information.” - KGBG p.7

After 40 years of horrendous behavior Nico has repeated proven that truth and facts are completely foreign to him. A rational person is compelled to ask: What is the real motive behind those who embrace this ugly contrived P-Con rumor? The only reasonable answer to why he began, and continues to promote the P-CON ,is because he is either extremely incompetent, or suffering from a serious unresolved emotional disorder!

Nico lack of credibility is further confirmed by his first daughter who created a whole website warning the public about his chronically selfish idiosyncrasies: There we learn: “**Nico’s grandiose fantasies at the moment revolve around the theories of Srila Prabhupada’s poisoning. He dreams that he will be the big shot that solves the case and puts the poisoners in jail. He thinks he is taking on the GBC and that he is a threat to them.**”⁴ Are your loyalties to what his own children refer to as a chronic narcissist, self-centered, delusional, irresponsible, pathological cheater or to Srila Prabhupada’s loyal disciples?

Nico ran from Fiji when his family collapsed just like he ran from North Carolina to avoid being dragged into court by HH Bhakti Charu Swami for slander. Why would any stable person with integrity support an individual who has the nauseous reputation for casting a complex web of intentionally promoted lies everywhere he goes?

Vaishnava Seva Savadhana:

Important Public Service Warning for Srila Prabhupada’s ISKCON

<https://jagannatha.com/vaishnava-seva-savadhana/>

There is a contagious virus that has infected new and some weak Vaishnavas. It can spread like a terrible cancer among those who are un-informed. This Public Service announcement is issued to alert those who want to protect themselves from this odious ailment.

NK&DG Throw Nico under the Bus!

Nico is so difficult to work with, he was jettisoned from his disruptive RtVik fantasy by individuals far more competent in promoting that charade. When we look under the “About US” tab at the *Justice for Prabhupada Foundation* website only Naveen Krishna and Dhira Govinda names are listed. After deferring to Nico to lead the charge on the P-CON for the last 25 years, it appears they finally realized he was just so unpredictably crazy they had to throw him under the bus. If they were smart enough to do that, why aren’t they smart enough to realize how ridiculous, vengeful, unfounded, slanderous and embarrassing his fantasy allegations are?

Compare Authors

<http://jagannatha.com/compare-authors-credibility/>

It is reasonable for people who do not know me to question what my background and reputation is. At the risk of being accused of vanity, this illustrated matrix provides the relevant details required to do a comparative study between Nico’s history and my own.

⁴What You NEED to Know about Nico Kuyt: Nico’s own daughter, Suddha Sattva, describes her father as one who suffers from a Narcissistic Personality Disorder, and everything after that is even more shocking, ugly and evidence of a very sick mind. <https://jagannatha.com/what-to-know-about-nico/>

from mayesvara dasa cont...

The Big Bluff: "All We Want is the Truth"

Intentional DECEPTION

There has been a long history of some disciples misinterpreting what Srila Prabhupada said. Sometimes it is a result of just immaturity, human err, or a misunderstanding and a devotee cites something with good intentions but out of context. NONE of that explains any portion of the P-CON. It was contrived by a vengeful person where facts are irrelevant. His mission is to unite ISKCO-Bashers under an emotional cause to destroy credibility in ISKCON management. Here Nico request support for his concept of the truth, because he will reject any testimony or information that exposes his work as fraud!

"Please consider giving your support for... *submitting information which may be relevant to the investigation*, such as ... relevant testimonials, or any other potential evidence; and Offering of advice, corrections, or constructive criticism (the more participants, the better) plus further testimonies, histories, recollections, information, evidences, etc." - KGBG p.7

Real Court V Lynch Mob?

If they want truth, start with legitimate reasons to believe a crime has been committed, and then take it to a legitimate court where 12 jurors could hear all the evidence, rule on it and punish the offenders if proven guilty. Nico rejects that proposal and pleads that he wants this case to be heard in the "Court of Public Opinion." This is a euphemism for "A Lynch Mob." He does this because he knows he has no real evidence and his agenda has nothing to do with the P-CON. It's all about tearing down ISKCON!

Legal Threats by WHO?

Nico claims to have spent \$300,000 promoting an event that never happened. On several occasions he has threatened ISKCON managers to "confess" to the crime of poisoning Srila Prabhupada because if they don't, he threatens to finish them off with his legal team! But since 1999 Nico has NOT been able to convince ANY firm or attorney to take his fabricated allegations seriously, so what legal resource is he referring to? Failing to disclose even ONE member of his legal team for all this time shows proof that Nico has no case and is simply bluffing.⁵

Why only, rumor, inuendo, personal attack and pseudo-science as Evidence?

The children's Chicken Little story cautions us to be wary of four methods con-artists use to cheat the gullible and all four have been exploited by those who promote the P-CON.

- #1 Use of flattery to convince insignificant people they are born leaders.
- #2 To influence the masses, aim first for the least intelligent.
- #3 If you tell them a lie don't tell a little one, tell a big one.
- #4 Use propaganda to undermine the faith of the masses in their leaders.

In the book **DECEPTION**, numerous examples of how Nico crafted his P-Con propaganda to flatter the least intelligent with his big P-Con lie that undermines their faith in ISKCON. Why does he need to do that if he had real court-worthy evidence to make his case?

Poison Conspiracy Utilizes Chicken Little Tactics

<http://jagannatha.com/p-con-lessons-from-chicken-little/>

This chart provides examples of the same four tactics used on Chicken Little. In that classic story the dastardly Fox manipulated the chicken's foolishness to lead the entire barn of tasty animals out so he could eat them for dinner! Nico uses the same tactics to manipulate the innocent into believing his nightmare tragedy of the P-Con.

Mr. Unknown & His Cousin Anonymous

There are so many unidentified sources used to prop up the P-Con several pages of them are listed in Section 3.3.7 of **DECEPTION** "Mr. Unknown & His Cousin Anonymous" p.76 Testimonies from unidentified individuals have no place in a real court of law. Why should any reasonable person accept any testimony from witnesses that Nico says he cannot (or will not) identify?

⁵ On September 16, 2024 Spam was released confirming that Naveen Krishna apparently approached the "Truth Labs" organization in Hyderabad India to act as the legal team to support his P-CON efforts. At this time the whole arrangement appears to be very suspicious and another example of bribery or fraud.

from mayesvara dasa cont...

Napolean?

Nico compares the way he alleges Srila Prabhupada was poisoned to the myth that Napoleon was allegedly poisoned by his own senior officers. However, Napoleon was NOT poisoned by his own men and died a natural death just like Srila Prabhupada did. Is this an example of Nico's very bad research or just another way he attempts to keep his sordid ruse alive? (It appears this point has been **Dropped**.)

NO CIA Involvement!

To further his malicious agenda Nico started the rumor that Adi Kesava's father worked for the CIA and had contacts to give information on how to poison Srila Prabhupada. That got picked up by ISKCON-Bashers who use it whenever it can to tear down ISKCON's integrity. Nico takes advantage of all this suspicious gossip to further his P-Con agenda casting Adi Kesava and his dad as possible players in filling in aspects of the unexplained P-Con anomalies. However, all references to the CIA and Adi Kesava's father are another example of pure P-Con hype. When Adi-Kesava was requested to address all the rumors he clearly confirmed:

- A. His father was never employed or involved with the CIA.
- B. None of his father's activity were pertinent to ISKCON.
- C. Both of his parents cared deeply about the devotees they knew.

Why does Nico continue to cast suspicions over Adi Kesava and his father despite these given facts? (It appears this point has been **Dropped**.) -**DECEPTION** Section 11.2.5 Adi Kesava Gets Maligned & Dragged In

Why keep changing allegations?

In 1999 Nico originally reported with 100% certainty that Srila Prabhupada was poisoned by arsenic. Almost 20 years later he then reports with equal certainty that it was cadmium which drove his soul out. Is this another example of Nico's sloppy research or an example of the attention craved "Boy Who Cried Wolf" syndrome?

Originally TKG was the primary target for masterminding the Poison Conspiracy fraud. After he passed away in 2003 Bhakti Charu Swami immediately became the NEW target for plotting this atrocity. Then he passed away in 2020. Why is the P-Con still being discussed if its purpose is to bring the wrongdoers to justice? The real reason for continuing this assault on ISKCON is vengeance from the ISKCON-Bashers!

NO Reasonable Cause

Law enforcement is very careful to establish a reasonable cause before they arrest anyone, especially in a murder case. Why are those who continue to prop up the P-Con so willing to ignore this important principle even at the risk of being sued for libel and criminal slander?

No Response = Guilty - Withholding counter evidence!

If those alleging the P-Con are so honorable, why have they flooded the public with controversial propaganda they know is insufficient and has never been properly cross examined? Why do they refuse to give a rational response to any of these questions?

Innocent Until Proven Guilty!

In the USA every citizen is treated as innocent until PROVEN guilty. In civilized Countries a person is considered innocent until PROVEN Guilty. They do not extend that legal courtesy to Tamal Krishna Goswami! Why does those supporting the P-CON assault completely disregard this legal right and jump directly into wild reckless murder accusations?

Total Denial of DECEPTION research. NO Balanced Journalism

Dhira Govinda interviewed by Narada/Hare Krisna Project Sept 26, 2024

<https://www.youtube.com/watch?v=za17YkGc7eo&t=2s>

44:10 We just provided just a six-page summary.

44:12 Their reports are dozens, probably hundreds of pages...(Dhira only shows six pages?)

44:40 Truth Labs report that it is unavoidably clear that SP was given poison with homicidal intent.

45:25 GBC stance as of this date is there is NO EVIDENCE, ZERO!

This is a very poor choice of words by GBC... it should say no Court-Worthy evidence!

46:15 Narada says he will provide links to ALL (oops) evidence...then clarifies to JUST Dhira's web page.

(Why isn't a link to ALL the material from Truth Labs made available for scrutiny)

1:12:00 We want the world to know the truth... about PPD disappearance....

Then why do they avoid discussing the evidence available in DECEPTION!

"For one who explains the supreme secret to the devotees, devotional service is guaranteed and at the end he will come to Me."

from mayesvara dasa cont...

1:14:37 GBC is engaged in coverup... accessory to murder...

Dhira Govinda Self Deception

<http://jagannatha.com/dhira-govindas-self-deception/>

It is embarrassing that a man with a PHD in Behavioral Science would jeopardize his reputation endorsing the mad allegations of a very envious narcissist! This chart illustrates how Dhira Govinda's intelligence has become completely eclipsed by his contempt for the GBC. It illustrates how he avoids addressing the pivotal questions that expose the P-Con fraud by waxing on about his own distorted "Feelings & Opinions".

Warned: Limitations of Hair studies!

Cadmium is very poorly understood, especially how it gets into the body and what the safe limits are for its presence in foods etc. However most relevant to our concerns is the legions of toxicologists that warn the medical industry not to equate high levels of cadmium in hair with illness because:

"Without an understanding of a dose-response relationship, useful interpretations will not be possible." - P-CON Antidote/Lampoon, p . 33

No Evidence Trail with Hair!

Because the hair evidence was not properly collected and kept in an evidence locker a good defense attorney would immediately request that it not be allowed as evidence because it remains suspect for contamination, human error or tampering. - P-CON Antidote/Lampoon, p. 55

Intentional Fraud & DECEPTION

Hair Studies are NOT Irrefutable Proof

<http://jagannatha.com/hair-is-not-irrefutable-proof/>

Dr. Morris provided several disclaimers in regard to how he processed Srila Prabhupada's hair. Nico only reveals the ones he wants his audience to know. This chart explains how the testing Dr. Morris did for arsenic should not be used to draw conclusions about cadmium.

On page 324 of KGBG eight citations are provided to convince us of the validity of hair studies. However, if we look closely, we find that all eight of those examples are misleading.

1. Five of the references are dated from between 1973 and 1986. Why such old references? That's because the medical industry became much more careful about diagnosing a patient based on hair analysis alone as they discovered how misleading that can be when treating the maladies of a patient. This puts into perspective how ridiculous and bias it is to accuse someone of murder over a single, very controversial hair study on samples that was 1/8 of the minimal amount required to get an accurate reading!
2. The sample size of the hair submitted to the most powerful research lab in the country was 1/8 of the minimum quantity required to get a reliable reading. Due to the high costs related to using such sophisticated equipment like the Missouri University Neutron Activation Analysis (NAA) method it is most often commissioned for work from deep pocket customers. Only large industry or the government can generally afford to use this elaborate and complex equipment. When they do it is applied to a whole different line of work than analyzing hair dust. (That we are to believe came from behind the blades of Srila Prabhupada's hair clippers thirty years after he departed and were not contaminated in any way!) This fact alone introduces a much larger possibility for introducing new methodology errors - P-CON Antidote/Lampoon, p . 34.
3. One of the references is from the Great Smokies lab which went out of business for fraud, corruption and deceit. -Poison Conspiracy Antidote/Lampoon - p 38 & DECEPTION Section 8.2.2 Great Smokies Corrupt Lab
4. Citation #6 is a second reference to the same study listed as item #1. Is this sloppy work or a cheap attempt to inflate the so-called evidence just to impress the reader?
5. Reference #8 comes from Wikipedia and it is about Arsenic. Why is Arsenic being rehashed on a web page dated: Friday May 26, 2017 if the new allegations are Srila Prabhupada was poisoned with cadmium? More intentional misdirection?

What is very revealing here is how the Wikipedia citation has been surgically chopped to give the impression of how discovering trace elements of arsenic in the hair can help researchers predict how it impacted the health of the person it came from. The citation presented to the reader is "**Hair is a**

"For one who explains the supreme secret to the devotees, devotional service is guaranteed and at the end he will come to Me."

from mayesvara dasa cont...

potential bioindicator for arsenic exposure”. But this has been strategically clipped from the Wikipedia entry to impress the trusting reader to believe just the opposite of what is conveyed when we read the entire quote found at: https://en.wikipedia.org/wiki/Arsenic_poisoning What the truth team presents is in green and what they omitted, right from the middle of this reference, is indicated in red and underlined!

*WIKIPEDIA: Arsenic poisoning: (2015) “Tests on hair and fingernails can measure exposure to high levels of arsenic over the past 6–12 months. These tests can determine if one has been exposed to above-average levels of arsenic They cannot predict, however, whether the arsenic levels in the body will affect health. Chronic arsenic exposure can remain in the body systems for a longer period of time than a shorter term or more isolated exposure and can be detected in a longer time frame after the introduction of the arsenic, important in trying to determine the source of the exposure. **Hair is a potential bioindicator for arsenic exposure due to its ability to store trace elements from blood. Incorporated elements maintain their position during growth of hair.”***

How truth-full is this?

Conclusion: There is absolutely NOTHING honest about the poison conspiracy allegations. It is a classic example of **Chicken Little** (<https://www.youtube.com/watch?v=3HR9vqx9oTQ>) on steroids dramatized with emotional pictures of Srila Prabhupada being very ill. The video propaganda is filled with ominous soundtracks while all sorts of statistics are fired at the viewer with no reference points provided to compare them to. This is NOT an honest investigation. It is a witch hunt that up until now has had NO significant cross-examination of anything that has been presented!

Absolutely Untrue! Intentional Fraud

Prabhupada had NO symptoms of Cadmium poisoning

Dhira Govinda interviewed by Narada on Hare Krisna Project Sept 26, 2024

<https://www.youtube.com/watch?v=za17YkGc7eo&t=2s>

43:30 Srila Prabhupada’s symptoms are completely consistent with cadmium poisoning! Wrong!

35:50 Cadmium poisoning explains everything

Despite all the attempts to tell us otherwise, Srila Prabhupada did not have symptoms of Cadmium Poisoning.

The telltale evidence of cadmium poisoning is not the physiological conditions of old age, it is severe bone damage, vomiting, diarrhea, nausea and the increased risk of cancers, particularly lung, prostate, and kidney. Srila Prabhupada had NONE of these symptoms.

Total Denial of DECEPTION research. Withholding counter evidence!

Dhira Govinda interviewed by Narada/Hare Krisna Project Sept 26, 2024 Why is there absolutely no mention of any of the counter evidence exposed in DECEPTION research?

Photophobia is NOT a symptom of Cadmium Poisoning!

Nico declares very assertively that Photophobia (light sensitive eyes) is a symptom of cadmium poisoning. Yet this can be easily disproved by anyone who attempts to find it listed in a medical journal that lists this as a symptom of cadmium poisoning.

Do Not Rull Out External Contamination!

Three of Nico’s hired forensic hair specialists advised that when considering the results of Srila Prabhupada’s hair studies to NOT: “rule out external contamination” Yet Nico intentionally disregards all of them, withholds this information and reports just the opposite! Why would he do that?

Dr. Morris Cadmium Study Disclaimers!

The NAA Studies conducted by Dr. Morris are being presented as absolute “Scientific Proof” that Srila Prabhupada was maliciously poisoned but that is just salacious unfounded propaganda. What the P-CON promoters do inform the public about are all the disclaimers Dr. Morris’s issued along with his report. When we read them listed below, it becomes very clear that it is extremely premature to accuse anyone of malicious intent to

"For one who explains the supreme secret to the devotees, devotional service is guaranteed and at the end he will come to Me."

from mayesvara dasa cont...

poison HDG based on the numbers found in his analysis. It should also be noted that hair analysis is used for determining the presence of drugs, alcohol, and DNA matching. But in the medical world, it is considered very controversial and unreliable for diagnosing patients. It rarely passes courtroom scrutiny as admissible evidence and fails as forensic proof that a murder has been committed... especially when no other tests have been done to corroborate the findings!

Dr. Morris issued the following disclaimers with his NAA report:

1. ...he explained each element required different setting for optimum measurements.
2. ...he tells us the reactor was set to detect arsenic, not cadmium.
3. ...he tells us the parameters used for cadmium are not as favorable as they are for arsenic.
4. ...he acknowledges the exceptionally small size of the samples he was provided.
5. ...he states: "with cadmium we cannot detect a normal level in these small samples"
6. ...he admits he stumbled upon the cadmium readings.
7. ...he tells us he was "refining his testing techniques"
8. ...he states the large uncertainty is the result of the small sample mass (0.00012 grams)
9. ...he tells us he increased the neutron activation to more radiation than "normal"
- 10...he reports that the vials used to hold the samples had a minute presence of cadmium.
- 11...he reveals how his process for collecting gamma rays went on for 5 days.

Additionally, it should be noted

1. Collecting data for five days is evidence the DELAYED NAA process was used.
2. Cadmium is limited to a ten-minute gamma bounce off rate.
3. Therefor why wasn't the PROMPT NAA process used to measure the cadmium content?
4. Based on this it appears Dr. Morris has a lot more explaining to do.
5. Even the nature of arsenic requires the PROMP NAA process.
6. This was the first time MURR equipment was used to analyze hair.
7. The NAA process is lauded for analyzing samples without destroying them.
8. After the report was issued, Nico tells us the samples were destroyed!?
9. NO explanation has been provided for why the samples were destroyed or lost!
10. Dr. Morris's was under a gag order to only communicate exclusively with Nico and nobody else. This poses a big problem because Nico has a-published record of lying under oath in Superior Court, on more than one occasion! The propaganda Nico has published confirms that he has misrepresented the concerns DR. Morris's had related to the outcome of his hair study analysis.
11. There have been no double-blind tests to confirm the results reported by Dr. Morris.
12. There has not been any cross examination from other experts in NAA process about the methodology used by Dr. Morris.
13. At the time of Bhaktivedanta Swami's passing, in 1977, there was no record of cadmium being used as a poison by anyone to intentionally murder someone!-Back then, cadmium was barely understood and was not even listed as a dangerous substance on any of the world's regulatory agencies like OSHA.
14. A study done at John Hopkins University in 2013 (40 years later) eventually reported: "We already know about the health hazards of heavy metals like lead and mercury, but we don't know much about what cadmium does to the body"
[Researchers link elevated cadmium levels to increased risk of liver disease | Hub](https://hub.jhu.edu/2013/05/15/cadmium-liver-disease/)
<https://hub.jhu.edu/2013/05/15/cadmium-liver-disease/>
15. We are told:
"Assuming the mass of the sample to be 1 milligram (0.001), our sensitivity translates to a detection limit of approximately 0.01 to 0.1 ppm." -KGBG p. 326
"As previously stated, the large uncertainty is the result of the small sample mass (0.00012 grams)" - Dr. Steve Morris. Letter to Nico Kuyt July 25, 2005 -KGBG p. 210
 When we do the math we discover: $(0.001/0.00012)= 8.333$ This means Dr. Moris was working with a hair sample that was less than 1/8 of the mass size normally required to get an accurate reading!
16. Due to the high costs related to using such sophisticated equipment like the Missouri University Neutron Activation Analysis (NAA) method it is most often commissioned for work from deep pocket customers. Only large industry or the government can generally afford to use this elaborate and complex equipment. When they do it is applied to a whole different line of work than analyzing hair dust. (That we are to believe came from behind the blades of Srila Prabhupada's hair clippers thirty years after he departed and were not contaminated in any way!) This fact alone introduces a much larger possibility for introducing new methodology errors - P-CON Antidote/Lampoon, p . 34.

"For one who explains the supreme secret to the devotees, devotional service is guaranteed and at the end he will come to Me."

from mayesvara dasa cont...

Dr. Morris was NOT expert on studying hair!

Nico shamelessly tells us that Dr. Morris is an expert in hair analysis.

"I had been very impressed with Dr. Morris's knowledge and I came to know that he had been involved in many previous hair tests for law enforcement agencies and court actions. He also had worked on numerous academic cases such as Incan and Aztec mummies." – KGBG p200

Srila Prabhupada's hair was the first hair analysis Dr. Morris ever did with the NAA equipment. The studies he eventually did on Aztec mummies occurred two years later. This explains why Dr. Morris had to make many trial adjustments to the equipment in his lab just to get any results. Why does Nico misrepresent Dr. Morris's experience in hair analysis?

Poison Conspiracy Has NO Scientific Proof

<http://jagannatha.com/p-con-not-scientifically-proved/>

Although Nico tells the less intelligent that he has "Scientific Proof" Srila Prabhupada was poisoned, this chart illustrates how he simply does not know what constitutes "Scientific Proof." None of the claims he makes have been cross-examined by impartial experts.

Dr. Morris Says: "Do NOT Rule out External Contamination!"

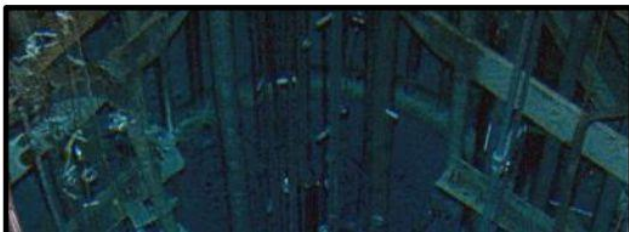

Dr. Morris detailed his work:

Kill Guru Become Guru (Book One) Page 203 <--Prior page

"As we have discussed previously, with such small samples the so-called analytical blank must be carefully determined so that one does not assign analytical signal to the sample that is actually associated with some other source. In this case there are two possibilities that could confound the hair analyses: external contamination and impurities in the small vials used to contain the hair specimens during the neutron activation analysis.

"External contamination cannot be completely ruled out without a detailed history of the sample; but one can search for possible sources of external contamination. In the instant case: I now have checked the containers the samples have been stored in and find no evidence of significant contamination sources for arsenic, cadmium, antimony, or mercury.

"I also carefully analyzed the high-purity vials (blanks) that I use in the NAA experiments and as expected there is a minute presence of the elements of interest in these vials. Keep in mind insofar as trace elements are concerned there is "everything in everything" if one has a technique sensitive enough to make the measurement. I have now made these sensitive measurements and have "blank-corrected" the results..."

No Custody of Evidence

Nico tells us the custody of Srila Prabhupada's hair was carefully handled according to the legal Chain of Custody rules required for any admissible evidence. However; this either means Nico is pathetically uninformed about what those rules are, or he is simply lying about how the hair was NOT protected from possible malicious contamination. Do you believe Nico is ignorant about what the Chain of Custody standards are, or do you think he is knowingly misrepresenting this important fact in an attempt to earn credibility from the ignorant?

"For one who explains the supreme secret to the devotees, devotional service is guaranteed and at the end he will come to Me."

from mayesvara dasa cont...

Forensic Audio Engineers DID Not Agree!

Despite what Nico claims, the audio engineers did NOT agree on the details of what was said on those three ambient sounds. When an unprejudiced ear listens to these sounds, they fail to provide any evidence that a crime was committed. Even Nico agrees “on their own, whispers prove absolutely nothing!” So why do people keep referring to the whispers as proof Srila Prabhupada was poisoned?

- DECEPTION Section 6.1 The P-Word Alone Means NOTHING p.195
<http://jagannatha.com/audio-forensic-tom-owens/>

Inflated Star Witness Jack Mitchel was a Forensic Fraud!

Nico tells us his star audio witness Jack Mitchel was so professional he had \$250K of audio equipment and many years of doing forensic audio analysis. But Jack tells us he only had about \$50K of equipment and spend the overwhelming majority of his time studying and just making music! Jack completely disappeared after milking Nico for thousands of dollars in fees and the Show FRONTLINE, produced by PBS, tells us Jack’s forensic credentials were forged! If Jack Mitchel is the best witness Nico could get to decipher the hyped-up whisper evidence, why should any reasonable individual take any of the claims Nico makes about whispers seriously? -DECEPTION Section 5.3.2 The Impeccable Jack Mitchell (CAE Audio), NM

Fraudulent Credentials

The so-called experts cited for promoting this rumor are maybe not so expert and may not uphold basic ethical standards of professional integrity and therefore may have been paid off to produce desired evidence. Two of the audio engineers who boasted ACFE credentials were not registered with the Association of Certified Fraud Examiners which is the only organization that issues Certified Fraud Examiners Credentials. - P-CON Antidote/Lampoon, p.28

Truth Team = Pure Devotees?

Pages and pages of material have been collected in an attempt to give the impression that there is overwhelming evidence supporting the poison rumor. Most devotees admit they have neither the time or interest to plow through what amounts to endless repetition of hearsay, confabulation, irrelevant speculation, character assassination and shamless vaishava aparada. What makes all of it even more repugnant is all the boasting about the exalted sadhana practiced by the clandestine Truth Team/Committee. We are frequently reminded about how they chant all their rounds, follow all the principles, are exalted scriptural pundits, and work so selflessly to do this most ungrateful difficult task. - P-CON Antidote/Lampoon, p. 16.

The limitations of the audio forensics Spectrograph are intentionally obfuscated. A more thorough understanding of how that technology is utilized and misused by the Truth Team is exposed on - P-CON Antidote/Lampoon, p. 24.

Examlle 1: On page 464 of KGBG the reader is told:

Tamal’s translation is very incorrect; there is no mention in the Mukunda Mala Stotra of “immediate death”... and Maharaja Kulashekhar was not suicidal.) -KGBG p.464

However, the Sanskrit word adya means “now, at this moment” and any child can understand that is equivalent to “immediately.” For those who still find this too difficult to comprehend are referred to the purport of SB 4.28.15 where Srila Prabhupad clearly translates the first portion of this verse: "My dear Krsna, please help me die immediately..." - P-CON Antidote/Lampoon, p. 53

Inconsistent Reasoning

We accept Prabhupada’s words only when they agree with our opinion!

1. On Oct. 25th, 1977 Tape #1 at 5:46 wherein Srila Prabhupada told Tamal Krishna Goswami: “That means he (Chandra Swami) is honest.” Yet Nico writes 15 pages in an attempt to convince us how dishonest Chandra Swami was and a pivotal player in the conspiracy to murder Srila Prabhupada. Is it wiser to believe Nico or Srila Prabhupada?

"For one who explains the supreme secret to the devotees, devotional service is guaranteed and at the end he will come to Me."

from mayesvara dasa cont...

2. The next day TKG was so concerned about what Srila Prabhupada had said the day before and he inquired: "... you said before that you... that it is said that you were poisoned? To which Srila Prabhupada replied very affirmatively: **"NO! These kinds of symptoms are seen when a man is poisoned. He said like that, *not that I am poisoned!*"** HDG unequivocally confirms that he was NOT saying he was poisoned. Yet some are so invested in perpetuating the ugly P-Con rumor they misconstrue this exchange by telling others he said: **"Someone has poisoned me!"** Why would a person with integrity do that?
3. . One of the biggest most emotional pieces of propaganda that has been used to promote the poison conspiracy is the allegation that suggests that Srila Prabhupad clearly and definitively stated: **"Someone has poisoned me!"** But for those who are actually willing to study the various conversations that are twisted and spun to support this forced interpretation, it becomes clear that he never said that. What he said was just the opposite. When asked: **"... it is said that you were poisoned?"** Srila Prabhupada was unambiguous. He said: **"No.... Not that I am poisoned."** - P-CON Antidote/Lampoon, p .24

If you have evidence why offer a \$50,000 reward to get it?

1. In a desperate attempt to breathe life in to his comatose nightmare he offers a \$50,000 reward to anyone who can help him write a more believable story. But if he doesn't have proper evidence why is any astute individual taking this obviously fictitious P-Con balderdash so seriously?
2. In 1999 Tamal Krishna Goswami was the primary suspect and the target of hundreds of pages of character assassination. When he passed away in 2002, Bhakti Charu Swami immediately became the new target. There is so much foaming at the mouth driving this witch hunt those behind this effort now are offering a \$50,000 reward for information that would lead to his conviction for masterminding the poison conspiracy. There is not even a good facade or clear reasoning going on here. This has evolved into a full-blown lynching, fueled by unchecked contempt and hatred. What started as by Chicken Little with a rumor from a bloomed 13-year-old gurukula kid has now grown into a full-on assault aimed at the entire GBC as well as anyone involved in managing any aspect of the International Society of Krishna Consciousness. (YouTube Video Allegations.)

Tamal Krishna Goswami – Very Brilliant or Pathetically Stupid?

1. Tamal Krishna Goswami is accused as being the mastermind behind the complex conspiracy to poison Srila Prabhupada. He allegedly executed his brilliant plot without ever being caught or questioned about any of his actions. Yet at the same time, TKG is portrayed as being so pathetically stupid he knowingly made self-incriminating statements, to a bystander, loud enough to be captured on a tape recorder he probably started himself! Was TKG brilliant, pathetically stupid, or neither and the whole P-Con ruse is just Nico's vindictive fabrication?
2. Those who are allegedly so incredibly brilliant enough to pull off the *"Crime Of The Millennium"* poisoning conspiracy must have also been so pathetically stupid they would talk about it when they knew a tape recorder was capturing what they said! -P-CON Antidote/Lampoon, p. 28 & DECEPTION Section 5.1.2 Brilliant Stupidity
3. How could devotees with no knowledge of this mysteriously behaving heavy metal, that is not even fully understood, and still being intensively studied today, understand it well enough to mastermind the *"Crime of The Millennium"* on Srila Prabhupada 40 years ago without anyone every finding out about it? -P-CON Antidote/Lampoon, p .63 & DECEPTION Section 9.3.4 Medications 101

Misrepresenting Srila Prabhupada's words.... Out of context.

1. On numerous occasions Srila Prabhupada requested not to be taken to a hospital regardless of how ill he became. On November 3rd, 1977 he specifically pleaded with his disciples: **"That is my only request, that *at the last stage don't torture me and put to death...* This is the decision, that in case it does not improve, let me die here."** **Srila Prabhupada considered hospital procedures as torture.** Nico clips out the middle portion of this statement to make it appear that Srila Prabhupada's own disciples were torturing him with the intent of putting him to death! Why does Nico misrepresent what Srila Prabhupada said?
<http://jagannatha.com/deception-do-not-torture/>
2. In a similar way Nico gives the impression that Srila Prabhupada was nervous about being killed by his own disciples when he said: **"And Lord Jesus Christ was killed. So, they may kill me also."** This is an excellent

"For one who explains the supreme secret to the devotees, devotional service is guaranteed and at the end he will come to Me."

from mayesvara dasa cont...

example of just how invested Nico's is in getting you to believe what he wants you to believe. When we hear the whole quote spoken on May 3, 1976 in Honolulu, Nico's blatant dishonesty is fully revealed:

"Prabhupada: "If this movement goes on, then how all these nightclubs will go on? How all breweries will go on? How all slaughterhouse will go on, cigarette factories will go on?" ... This is our position. Gradually they {...those who are flourishing by selling cigarettes and wine and liquor, (will say) ... "Immediately kill him."^(At 6:29) ... They will want to crush down this movement. ... So, there may be attempt like that. **And Lord Jesus Christ was killed. So, they may kill me also."**

Nico's purpose in life is to convince everyone Srila Prabhupada's disciples plotting to kill him and he will do whatever it takes to achieve that. Are you foolish enough to support his demoniac agenda?

Unfounded false allegations!

It has been stated that the GBC hired me and funded my three-year study exposing the P-Con fraud. But this is an entirely fabricated tale. The truth is I spend approximately \$10k of my own funds to expose the P-CON madness. Very few people knew I was doing this research until the results were released on Gaur Purnima Day in 2020. But more importantly, regardless of how the research was done, the questions remain valid and unaddressed. Why doesn't ANYONE who believes in this mass hypnotic hysteria make ANY effort to answer these revealing questions?

1. It is originally speculated that Chandra Swami prepared the Ayurvedic makharadhvaja medicine Srila Prabhupada took with excess heavy metals for the purpose of poisoning him. Later however they say there is no Ayurvedic medicine that uses heavy metal
2. As fascinating as this may be, it only serves as a distractive speculation to prop up the P-Con. Is this the best Nico can dig up as evidence to prop up his bogus P-Con?

Why not Just Blame it All on TKG!

If the people accused of this horrible crime were so selfishly unconcerned about anyone else, why wouldn't they have just followed that same selfish behavioral pattern and taken the easy way out by throwing Tamal Krishna Goswami under the bus years ago in a formal confession? (He passed away in 2002) If they did that this would have ended then according to those who are pushing this agenda - [P-CON Antidote/Lampoon, p .19](#)

Ambiguous, Inadmissible or Frivolous So-Called Evidence

Whisper evidence is bias, absurd & fails prejudicial test for court evidence.

As of September 16, 2024 Naveen Krishna and Dhira Govinda joined forces to start spamming the Vaishnava community with P-CON propaganda via a website called Justice for Srila Prabhupada Foundation Inc. (Notice that they threw Nico under the bus because they apparently realized his horrendous reputation did not add any credibility to the P-CON rumor.) One of the pieces of evidence they blasted all over the word was a 22-minute sound clip that was released from Truth Labs from Hyderabad India. It presents audio clips of conversations with Srila Prabhupada from November 8, 9, 10 1977. The first 18 minutes are sections of the clear conversation and the last portion of this "Forensic" audio clip are the enhancement of shadow sounds that are referred to as the "Whisper Evidence." What follows is the analysis of that 22-minute audio assault.

<https://drive.google.com/file/d/1YX1bhbhE9hDyKP94UIY5trTzfn8O7WO/view>

Proof 1: The Audible Conversation With HDG

-DECEPTION Section 7.2 Hear of the Controversy: Dialogue with HDG p.208

We remember HDG as a robust, fast walking septuagenarian who had diabetes—that he knowingly ignored. His liver and kidney began to fail, which is exactly what modern medicine tells us to be expected for a diabetic. With liver & kidney failure, toxins in the blood increase, the metabolism is disrupted and the body swells up. Eating then becomes difficult, which leads to nausea & rapid weight loss which is what happened to HDG. After a while a disciple came to visit and exclaimed in shock: "PPd You look like you have been poisoned!" PPd questioned: "6:36 Someone says that I have been poisoned? It's possible?"⁶

6 Nov. 8th, 1977 Tape #2. (KGBG wrongly posts as Nov 9!) Prabhupada Vani Link:
<https://prabhupadavani.org/transcriptions/771108r2vrn/>

"For one who explains the supreme secret to the devotees, devotional service is guaranteed and at the end he will come to Me."

from mayesvara dasa cont...

When the Kariraja inquired PPd said: 6:55 “Someone says that, somebody has given me poison.”
 Kaviraja & BCS asked “Who said?” PPd: 7:05 “All these friends... They all Say.” (Everyone who visits him!)
 Kaviraja & TKG ask: 7:30 “Who will give you poison?”
 PPd responded incredulously: 7:48 “I do not know (who said it) but it is said...” Realizing they were making a big deal out of this simple observation PPd changed the subject: 8:09 “Do you know astrology?”
 Overly concerned 17:45 minutes later the kaviraja asked again 25:15 “someone gave you poison?” & PPd admonishes him: 24:24 “NO! Someone said that, when given poison⁷ this happens... Maybe (my symptoms) it's written in some book?”
 The Kaviraja explains how consuming some foods or raw mercury could be the cause of Srila Prabhupada’s maladies. He elaborates that there are also other things that could have caused his health to decline. He then questions; Who would poison a saint like Srila Prabhupada intentionally? Only a terrible demon could even think of such a thing. Then next day TKG still concerned asks for a third time: 15:38 “you... said that you were poisoned?”⁸ and PPd responded firmly, clearly and even a bit dismayed...
 16:07 “NO! These kind of symptoms are seen when a man is poisoned. ...
 He said like that, **not that I am poisoned.**
 Tamal Krishna persists: 16:14 “Did anyone tell you that (how your symptoms are same as those when a man is poisoned), or you just know it from before?”
 16:21 Srila Prabhupada: I read something.
 Next Day Bhavananda states: 9:57 “Prabhupāda was complaining of mental distress this morning”
 When asked about it he responded:
 10:20 Srila Prabhupada: “That same thing - that someone (my disciples) think I was poisoned.”
 Srila Prabhupada was distressed about how the appearance of his body was so sever it looked as if he had been poisoned! He knew how disturbing it was for his disciples to see him suffering so much but there was nothing he could do to change it. We were all witnessing how his body was collapsing and most of us had never seen anything like this before. To make the best out of this terrible bad bargain, he kept teaching and reminded us to become serious about our KC because: “*This will also happen to all of you!*”

Proof 2: The Barely Audible Whisper Evidence

-DECEPTION Section 5, Being Told What to Listen For p.131

The possibility of finding hidden P-Con whispers, ignited ambitious sleuths everywhere to rigorously listen for confessions lurking on the last few Prabhupada recordings. Those hounds originally tweaked out 54 suspicious sounds but they were so absurd even the promoters of this rumor realized they could not be cleaned up enough to support the P-CON ruse. So that list got cut to just four potential incriminating whispers and then one of them immediately got cut as flimflam by the P-Con hired audio staff. Here we address the three so-called pieces of whisper evidence.

1:58 TKG: **The poison is going down.**¹⁰

Srila Prabhupadas body was very puffed up and he requested to be laid on his back. After TKG laid him down he notices that his body wasn’t as inflamed and he testified that his comment was “**The swelling is going down.**”
 You cannot drink milk on your back and he wasn’t even offered milk until 7:10 minutes later!

4:11 TKG: **Is the poison in the milk?**

Prabhupada had not even asked to drink milk until 3:57 seconds later! Just 2:46 minutes before TKG allegedly asserted: The poison is going down. Why would he now be asking: Is the poison in the milk?

46:53 Unknown: **...poisoning for a long time...**¹¹

7 “... No, someone said that... this is what happens when given, Maybe it is written in some book... Nowhere in the above text does Srila Prabhupada use the phrase “given poison” in English, Hindi or Bengali. The P-Con-Authors just arbitrarily tossed these two words into the sentence and commit another act of fraudulently translation the words of His Divine Grace.

from mayesvara dasa cont...

This is evidence of how haplessly desperate those promoting the poison conspiracy are to find evidence to support unfounded ugly accusations that never occurred. This would never stand up in court because without coaching the jury (leading the witness) to listen for what they claim is in this audio shadow, nobody would hear "...poisoning for a long time..." . Even if we grant that perhaps someone said, "...poisoning for a long time." it makes more sense that they would be referring to what Srila Prabhupadas kidneys were doing, not his loving disciples. But then how does it even fit into the conversation they were having about Kirtan?

No Opening Statement?

The extraordinary planning and logistics required to commit this crime are so phenomenal it is beyond the credibility of any reasonable man to conceive of. Even those who have been pounding this sordid subject for 20 years admit they have no reasonable guess for how this ugly fairy tale could have ever happened. Yet one of the most important things the prosecuting attorney in a murder trial makes an opening statement. At that time he uses the facts he has acquired to explain in detail how the accused committed the crime. Those promoting the P-CON admit they can't begin to explain how anyone could have committed this crime but they dismiss that as unnecessary. They openly admit they have no answers to the following issues:

- (1) Who else was involved in the poisoning besides Tamal, and what were their roles?
- (2) Who knew of the poisoning in 1977, although not directly involved?
- (3) Who came to know of the poisoning after 1977?
- (4) Where was the cadmium chemical obtained for the poisoning?
- (5) How was the poison administered and who taught the poisoners how to use it?
- (6) When did the poisoning start, and when was it given thereafter?
- (7) Who else in ISKCON knows that Srila Prabhupada was poisoned but has denied it until now?
- (8) What is the relationship between those who poisoned Srila Prabhupada and those involved in the ISKCON guru takeover conspiracy?
- (9) Who else knew of Tamal's ridiculous claims that Srila Prabhupada wanted to commit suicide by being given a medicine/poison to die immediately?
- (10) What meetings took place to plan and execute the poisoning plan? -SPHG p.700

Eliminate Impossible to Arrive at Truth

The items mentioned above are just a few of the many things the P-CON pros cannot begin to address. This document provides numerous other questions those promoting this terrible lie cannot explain. When it is all stacked up it is so overwhelming it confirms nobody could have poisoned Srila Prabhupada as alleged. Yet those promoting this ruse cling to the NAA studies done by Dr. Morris like they are cast in gold. They contend that no matter how much evidence suggests something isn't right about his measurements, they refuse to give that any consideration. It is virtually the ONLY somewhat real evidence they have. They are so emotionally involved in keeping the P-CON alive they are incapable of recognizing how bias and malicious it is to accuse Tamal Krsna Goswami of murder based on something even the medical industry considers unreliable for diagnosing the overall health of a patient. On January 3, 2001 the Journal of the American Medical Association released a comprehensive study on the reliability of hair analysis and concluded:

"Hair mineral analysis is being used by health care practitioners and promoted by laboratories as a clinical assessment tool and to identify toxic exposures, *despite a 1985 study that found poor reliability for this test...* Laboratory designations of normal reference ranges varied greatly, resulting in conflicting classifications (high, normal, or low) of nearly all analyzed minerals. **Conclusions** *Hair mineral analysis from these laboratories was unreliable, and we recommend that health care practitioners refrain from using such analyses to assess individual nutritional status or suspected environmental exposures.*"
https://jamanetwork.com/journals/jama/article-abstract/193430#google_vignette

Appeal to: "Court of Public Opinion" & Avoid A Real Court of Law!

"It is completely legitimate for us to now conduct a theoretical trial by evaluating the evidence of Tamal's involvement. This would be in the *court of public opinion*, or more exactly, this book's reader's opinions." - SPHG p.411 Those promoting the P-Con know they can't prevail in a real court where it is required to convince the jury that a crime has been committed using real facts. Those who have fallen for this horrible charade contrived by an individual whose whole life is marked with disgraceful behavior, conflicts, and illegal

from mayesvara dasa cont...

activities tend to also have emotional reasons to jump on this sordid murder campaign. ISKCON-Bashers focus their bile towards the less-astute “Chicken Little” types in their agenda to build a Lynch-Mob-Coalition. - P-CON Antidote/Lampoon, p 62

Tell A Big Lie!

Allegations that the CIA, Mossad, the Indian Government and a whole litany of other remarkable characters are seriously suggested as assistants in the plot to poison Srila Prabhupada. There is little more than hearsay to even bring these sources into the study. Consequently, all this reflects is how much speculation and imagination is subjectively injected into this myth to keep promoting it. The Poison Antidote illustrates how desperately those wanting to keep this poison rumor alive will stop at nothing to perpetuate it. - P-CON Antidote/Lampoon, p . 28

Leading the Witness? Evidence Dismissed!

Professional audio forensic engineers do NOT want to be told what to listen for when hired because if they are later called to testify in court, they cannot be accused of having been “Told what to listen for.” The “Power of Suggestion” is so strong it compromises the authenticity of any unbiased audio analysis. If that occurs, an attentive attorney would insist that evidence to be tossed out. Nico tells us that he not only told his hired fleet of seven audio pimps specifically what to listen for, but exactly where to listen for it on the tape! Is this the type of flim-flam nonsense you are willing to accept as P-Con evidence?

Leave Napoleon out of this!

All of the dramatically presented hyperbole which draws comparisons between Srila Prabhupada’s alleged poison conspiracy to the rumors that Napoleon was also poisoned in a similar way are another completely unfounded misrepresentation. The fact that so much was said about this demonstrates further proof of either the incompetence or the intent to deceive by the authors of the poison propaganda. History has unambiguously concluded that Napoleon was not poisoned. The Poison Antidote provides compelling evidence that Srila Prabhupada was also not poisoned. - P-CON Antidote/Lampoon, p . 30

Desperate to Create Evidence

The possibility of finding hidden P-Con whispers, ignited sleuths everywhere. to rigorously listen for confessions lurking on the last few Prabhupada recordings. Those hounds originally tweaked out 54 suspicious sounds but they were so absurd even deranged Nico realized they could not be pumped up enough to support his P-Con ruse. So that list got cut to just four potential incriminating whispers and then one of them immediately got cut as flimflam by his own hired audio staff.

No Whisper Evidence

<https://jagannatha.com/no-whisper-evidence/>

Nico completely misrepresents all of the results reported by the various audio forensic engineers that he employed to confirm what he wanted. This chart clarifies how the ONLY thing they all agreed on was the presence of the word poison. That proves NOTHING as it was a term frequently used when the attending devotees were discussing the poisons Srila Prabhupada’s kidney were failing to filter out of his blood due to advanced diabetic symptoms.

Rigorous Rules of Jurisprudence!

Some research indicates that if cadmium were ingested via the mouth the majority of it would pass out of the body without being absorbed. For that reason, even when poison is found in the gastrointestinal tract... that is not adequate for proving someone was poisoned. - P-CON Antidote/Lampoon, p . 33.

The accepted medical principle for laboratory tests on hair is that no conclusive results are ever acceptable unless they can be cross confirmed using a barrage of other standardized methods for examining the body. Quote: *“This example helps illustrate the difficulties in using hair concentrations alone to draw inferences regarding the magnitude of the internally absorbed dose of a metal.”* - P-CON Antidote/Lampoon, p. 36.

Srila Prabhupada NEVER Said “Someone Has Poisoned Me!”

1. For many years Srila Prabhupada was a robust, fast walking septuagenarian. When his liver and kidney began to fail, the life-giving quality of purely filtered blood was lost. That led to rapid weight loss and made him bedridden. Most devotees were not around HDG while this transformation occurred so when they

"For one who explains the supreme secret to the devotees, devotional service is guaranteed and at the end he will come to Me."

from mayesvara dasa cont...

eventually did see him again, they were often shocked at this transformation. Eventually a disciple said something like: *"It looks like you/he has been poisoned!"* Indeed, it did look like that and Srila Prabhupada heard what was said!

2. HDG was so disturbed about how his emaciated physical body caused distress to his disciples he was finally asked on November 8th, 1977 what was bothering him? Srila Prabhupada responded: *"Someone says that, somebody has given me poison..."* He was then asked: *"Who is saying?"* And his response was: *"All these friends... they all say."* This was also true. Many devotees were describing Srila Prabhupada's new physique to be like that of someone who had been poisoned. Perceiving how this turn in the conversation had raised even more suspicions and become counterproductive, HDG abruptly changed the conversation to astrology.
3. The next day TKG was so concerned about what Srila Prabhupada had said the day before and he inquired: *"... you said before that you... that it is said that you were poisoned?"* To which Srila Prabhupada replied very affirmatively: *"NO! These kinds of symptoms are seen when a man is poisoned. He said like that, not that I am poisoned!"* HDG unequivocally confirms that he was NOT saying he was poisoned. Yet some are so invested in perpetuating the ugly P-Con rumor they misconstrue this exchange by telling others he said: *"Someone has poisoned me!"* Why would a person with integrity do that?

Sloppy Research

Those who apparently know so much about Srila Prabhupada claim his head was massaged with mustard oil, when in fact sandalwood oil was used on his head. This is the type of very sloppy research that runs all through the presentation made by those who have made it their life's mission to keep the poison myth propped up. - P-CON Antidote/Lampoon, p. 41

Naveen Krishna Admits Prabhupada Never Said: "Someone Has Poisoned me!"

Furthered evidence of how presumptuous the P-Con pundits are is how they admit to projecting their own intended interpretation into the comments of HDG. Many believe there was a plot to murder Srila Prabhupada based on the false claim that he said: *"Someone has poisoned me!"* Nico perpetuates this falsehood by making this statement the title of his first diatribe even though the spectrograph on the covers do not illustrate those words! This lie gave the so-called Truth-Team an opportunity to come clean and this is a very rare example of where they do admit:

"He never said, '... They have poisoned me.' It is we (investigating)⁽¹⁾ with facts⁽²⁾ and hindsight who see it as a cabal at work⁽³⁾" JFY 70

- (1) Those who are investigating are the reliably incompetent agenda driven so-called truth-committee
- (2) Not very many facts involved here but a whole lot of bitterness, resentment, suspicion, speculation, contempt, anger, and hurt etc.
- (3) You look for what you want to find and if it is not there you just make it up! (atmavan manyate jagat)

So: We ask again here: If the P-Con writers admit Srila Prabhupada did NOT say: *"Someone has poisoned me!"* why do so many some people continue to believe he did?

-DECEPTION Section 7.2.2 HDG Note 1: All Concur, HDG Did NOT Say It! P.239
<http://jagannatha.com/all-concur-hdg-did-not-say/>

Never Considered?

Other Cadmium Sources

The impact of Cd-Hyper accumulating mustard seeds/oil eaten over Srila Prabhupada's entire life, and then later rubbed into skin, or the snuff he chewed, and amalgam in his teeth could account for excessive amounts of Cadmium in his body... if in fact it was excessively high! - P-CON Antidote/Lampoon, p. 41

No Cadmium Poison Cases in 1977!

<http://jagannatha.com/no-cadmium-poison-cases-in-1977/>

The most damning evidence to the P-Con rumor is that in 1977, NOBODY had ever tried to murder someone using cadmium because how it affected the body was barely understood. This chart illustrates how absurd it is

"For one who explains the supreme secret to the devotees, devotional service is guaranteed and at the end he will come to Me."

from mayesvara dasa cont...

to suggest that Tamal Krishna Goswami could figure out all the details as alleged with no training in chemistry, no time to learn that science and no one to show him the way.

What are the odds?

<http://jagannatha.com/what-are-p-con-odds/>

The P-Con consists of numerous essential milestones necessary for the fantastic plot to have been successful as alleged. This chart illustrates what the statistical probability is for a P-Con to have occurred given a 50% chance that only half of the data points in the chain were successful. Even after giving this major concession, the odds of the poison conspiracy are are: One to:1,048,578!

Really? Stretching imagination to absurdity!

Chandra Swami's Role

1. To explain the nefarious aspects of the P-Con, Nico enlists the "Notorious" Chandra Swami and portrays him as a villainous operative in Indian Politics. *He then postulates that Chandra Swami may have helped Tamal Krishna Goswami (TKG)* with the knowledge required to make the P-Con plausible. But TKG barely knew Chandra Swami and was too busy with the NY court case to spend any time with him! So how is this speculation any form of proof considering how unlikely it ever happened?

At his peak Tamal Krishna Goswami began his Poison Campaign?¹²

1. Nico postulates that Tamal Krishna Goswami (TKG) began poisoning His Divine Grace (HDG) in Feb 1977. At that time Srila Prabhupada was praising TKG for the tremendous success he had with the six-bus Radha Damodar Travelling Sankirtan Party campaign, the management of the 13 story 55th Street Temple in Manhattan NY, and the victory of the court case established ISKCON as a legitimate religious institution! What reason would TKG have to poison HDG when he perhaps was the most internationally praised disciple in 1977?

How Time Exposes the P-Con Fraud

<http://jagannatha.com/how-time-exposes-the-p-con-fraud/>

Play TKG Lectures Backwards to hear him confess!

Nico is so disconnected from reality that he claimed evidence of his fantasy can be found by playing tapes of TKG backwards. He tells us that if one does so, we can hear TKG saying:

| Forward: | Backward: |
|---|--|
| "under your care" | = "I kill you now" |
| "and turn off the light. Would you..." | = "Fail upon arsenic" |
| "travelling all over India, Srila Prabhupada" | = "You're not gonna shame me along the life" |
| "we're here chanting" | = "masquerade the milk" |
| "translating or otherwise" | = "S'know that I'm the emperor" |
| "to cook for you" | = "We fuck it" |
| "Sankaracharya line will..." | = "Oh, now they arshed a cup" |
| "Well, if he does not come" | = "Muck inside you flow" |

Will someone please explain how any of this proves anything other than just how psychotic Nico Kuyt is?

There was not even a thin thread of truth about Reverse Speech being used by police in 1999 although that is exactly what we were told. That statement was so blatantly deceiving it still isn't even true today 20 years later! This was just a flat-out, pathological, boldface lie and further indites just how mendacious the so called "Truth Team" actually is. - [P-CON Antidote/Lampoon, p. 29](#) (This is so ridiculous eventually even Nico **Dropped** it!)

¹² How Time Exposes the P-Con Fraud: In 1976 Tamal Krishna Goswami was being flooded with appreciation from Srila Prabhupada for all the extraordinary preaching he was doing. Nico claims that Tamal chose to reciprocate for all that affection by studying chemistry so he could poison him in a way that nobody had ever done before! This illustration shows how Tamal had absolutely NO time to do that in 1976 and it reveals another example of how utterly absurd Nico's pulp fiction Poison Conspiracy (P-Con) allegations are! <http://jagannatha.com/how-time-exposes-the-p-con-fraud/>

from mayesvara dasa cont...

How Do You Explain This?

NO Remorse? Code of Silence!

The latest version of the P-Con alleges that numerous individuals on the GBC were involved in the poisoning of Srila Prabhupada. If that is the case then how do you explain all of them remaining silent about such a colossal crime committed against their spiritual master for more than 4 decades with no one coming forward with a guilty conscience to break the silence?

Drunk Drivers Avoid Breath Test!

Why would the very people who were accused of this horrible crime agree to turn in hair samples to exonerate themselves if they had any reason to believe doing so might convict them of engaging in a poison conspiracy? Are drunk drivers happily agreeable to taking a breath test? Do rapists volunteer their DNA to investigators? - P-CON Antidote/Lampoon, p . 39

No cases of malicious cadmium poisoning before 1977 or many years after!

If there are such cases, provide the names, places and details about when it happened. -DECEPTION Section 9.5.4 No Relevant Cd Poisoning History p 330

How did TKG Know?

Where did TKG acquire cadmium, the pharmaceutical knowledge of how to mix it and rate to administer it with the precision clockwork Dr. Morris says no ordinary joe could do?

"The recipe, doses, and application of a slow acting cadmium poisoning was definitely beyond the ability or imagination of the average Joe." -Dr. Morris -KGBG 625

Dr. Pillay V. Nico?

World class toxicologist Dr. Pillay's professional opinion is consistent with scientific medical reasoning & reduces the P-Con down to an unrealistic "Bollywood Thriller!" Why is his experience as an expert in toxicology completely ignored by Nico's vengeful and obvious fraud given unchecked credibility by those invested in the Poison Conspiracy ruse?

Credibility Gap

How could any honest researcher claim to know what the chemical contents were in the mustard oil used to massage Srila Prabhupada's body 40 years ago? - P-CON Antidote/Lampoon, p . 43

Note even vaguely similar!

In April of 2019 KTVU television tells us about a man at Berkley Engineering & Research (BEAR), who attempted to poison his co-worker with cadmium exactly the way Nico accuses TKG of doing it in 1977. We learn how 34-year-old employee, David Xu, was arrested for poisoning the canteen of his co-worker Rong Yuan. Mr. Xu got caught because Rong Yuan could taste the presence of cadmium, felt the effects immediately and was quickly diagnosed by the local hospital where she went for treatment. But Nico tells us cadmium is tasteless but that is not what we learn from this event so what does he is his statement based on?

50-year-old mustard oil?

How could any honest researcher claim to know what the chemical contents were in the mustard oil used to massage Srila Prabhupada's body 40 years ago? - P-CON Antidote/Lampoon, p . 43

Most obvious symptom of cadmium poisoning not present!

Dr. Pillay firmly confirmed what is available in all the studies on how cadmium affects the body: **Cadmium attacks the bone.** It can be immediately discovered by even an entry level medical student. Yet none of the medical people who examined Srila Prabhupada found any evidence of abnormal bone deterioration. How would that be possible if HDG ingested so much cadmium over several months that it eventually destroyed his body completely?

"For one who explains the supreme secret to the devotees, devotional service is guaranteed and at the end he will come to Me."

from mayesvara dasa cont...

Why avoid the tough questions?

Those promoting the Poison Conspiracy have yet to address any of these questions and are very adroit about dodging, ignoring or belittling them. Why would anyone who claims they want to understand what happened during the last days Srila Prabhupada be so invested in manufacturing evidence, withholding relevant facts and engaging in numerous forms of DECEPTION? Why do they continue to be so evasive about discussing these questions in an open forum and mediated forum?

How cadmium affect the body was barely understood in 1977.

(Medical research dollars were being pumped into the dangers of cigarette smoking. A study done at John Hopkins University in 2013 (40 years later) eventually reported: [“We already know about the health hazards of heavy metals like lead and mercury, but we don't know much about what cadmium does to the body”](#)

https://www.hopkinsmedicine.org/news/media/releases/elevated_cadmium_levels_Linked_to_liver_disease

No reasonable coherent attempt to explain Poisoning Logistics.

Where is the coherent explanation of who, how, where and when, Srila Prabhupada was poisoned?

No other Examples of Cadmium used intentionally to kill before 1977!

1. Nico attempts to show [other examples of cadmium poisoning](#) but he completely fails in that task. When studied closely, none of the examples he presents have anything to do with cadmium! Is this another example of Nico's incompetence, or is he relying on the ignorance of his sycophants to not even notice this sleight-of-word?
2. There is not even ONE example of anyone ever having been intentionally poisoned by cadmium over the last 40 years. But we are to believe Srila Prabhupada is the ONLY exception? [-P-CON Antidote/Lampoon, p. 32](#)

Hair Samples Destroyed! Why, How?

In the world of nuclear physics, the Neutron Activation Analysis (ANN) process is heralded for its ability to study the contents of a sample without destroying it. It is specifically lauded for preserving the sample so it can be used for future analysis! But Nico tells us the hair samples which allegedly generated abnormally high readings were destroyed from the tests Dr. Morris did. This conveniently makes it impossible for anyone else to ever test them for a second opinion! Was Dr. Morris's work so sloppy he inadvertently destroyed the hair samples or did Nico destroy them so nobody could prove he lied about the results?

[-DECEPTION Section 8.6.2.2 NO Peer Review](#)
