

# The Illustrated Socratic Series Used to Expose the Poison Conspiracy Fraud

Illustrated **DECEPTION** Research · c/o mayesvara dasa · [mdjagdasa@gmail.com](mailto:mdjagdasa@gmail.com) · Dec. 2024

## 1 Using Questions to Discover the Truth

The idea of Srila Prabhupada being poisoned by his own senior disciples is an uncomfortable topic no matter how it is discussed. It is particularly overbearing when the investigation gets bogged down with deliberations involving how many parts per million of cadmium one can ingest before their eyes start to pop out! It is easy to manipulate the simple working-class individual who gets lost in such thick medical terminology. That is one of the reasons why the Poison Conspiracy has lingered on for so long. But there are easier ways for sincere individuals to understand the facts surrounding Srila Prabhupada's departure lila.

The great philosopher Socrates developed a process to stimulate thinking, illuminate ideas, and explore beliefs that shape our work. To overcome personal bias, he would ask pivotal questions that challenge our viewpoints. The reward for those willing to stay in the dialogue, is a more comprehensive awareness of the world we live in.

Everyone is familiar with the *question & answer* process for learning. Pivotal questions can be very effective in revealing the truth of the matter. For example; Johns Hopkins Medical University reported in 2013 “...we don't know much about what cadmium does to the body.” An astute individual would then want to know: ‘How could Tamal Krishna Goswami know the proper formula required to poison Srila Prabhupada in 1977?’

There are 20 pages of questions like this that the poison advocates refuse to acknowledge, what to speak of answer. ( <https://jagannatha.com/questions-for-real-brahmins/> ) This confirms that they are not serious about understanding how Srila Prabhupada departed this world. “*If the quest is for truth, why neglect such fair questions?*” This is how the Socratic method will lead a rational individual to the conclusion that nobody could have poisoned Srila Prabhupada.

The challenge is to convey these conclusions to a short patience short patient, *Screen-Driven Society*. To do, that I illustrated some of the important issues used to prop up the totally fraudulent poison conspiracy rumor. I then applied the Socratic method to unfold them. At the bottom of each plate, the numerous points presented in the content of each page are summarized with relevant questions that deserve coherent answers.

# The Illustrated Socratic Series

Those who feel compelled to defend Srila Prabhupada, his ISKCON Institution and the senior disciples who built it, are encouraged to download these colorful plates and post them wherever you encounter any of the poison conspiracy propaganda.

## 1 How Time Exposes the P-Con Fraud

<http://jagannatha.com/how-time-exposes-the-p-con-fraud/>

In 1976 Tamal Krishna Goswami was being flooded with appreciation from Srila Prabhupada for all the extraordinary preaching he was doing. It is alleged that he reciprocated with all that affection by studying chemistry so he could poison Srila Prabhupada in a way that nobody had ever done before! They claim he administered cadmium several times during the period between July of 1976 until HDG departed on November 14, 1977 and that explains for the alleged 250 times the amount of cadmium normally found in Srila Prabhada's hair. The absurdity of this allegation is that the medical industry tell us that for such large amounts of cadmium to have been deposited in Srila Prabhupada hair, he would have had to ingest lethal amounts of cadmium every day for well over a year! This illustration shows how Tamal had absolutely NO time to do that in 1976 and it reveals another example of how utterly absurd the Poison Conspiracy (P-Con) allegations are!

## 2 Poison Conspiracy Has NO Scientific Proof

<http://jagannatha.com/p-con-not-scientifically-proved/>

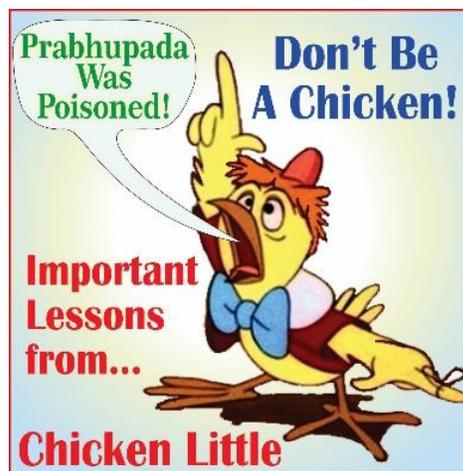

We are repeatedly told that there is "Scientific Proof" Srila Prabhupada was poisoned, but this chart illustrates how those who make this claim do not understand what constitutes "Scientific Proof." But where is that "Scientific" proof? Before anything is accepted as "Science Based" it must pass thru several stages which include 1) Experimentation 2) Analysis 3) Peer Review 3) Replication & 4) Consensus. There has been absolutely NO Peer Review, Replication or Consensus on the premature very bias P-CON allegations. Those promoting all this fraud have shamelessly thrust their mendacious theories into the Vaishnava consciousness via disreputable, web based guerrilla spam tactics and a deliberate flooding of various social media outlets.

## 3. Poison Conspiracy Utilizes Chicken Little Tactics

<http://jagannatha.com/p-con-lessons-from-chicken-little/>

This chart provides examples of how those promoting the Poisoning allegations used the same four tactics used on Chicken Little to glean the support they want. In that classic story the dastardly Fox manipulated the chicken's foolishness to lead the entire barn of tasty animals out so he could eat them for dinner! Similar tactics have been used to manipulate the innocent into believing a terrible rumor that has absolutely no foundation.

- #1 Use of flattery to convince insignificant people they are born leaders.
- #2 To influence the masses, aim first for the least intelligent.
- #3 If you tell them a lie don't tell a little one, tell a big one.
- #4 Use propaganda to undermine the faith of the masses in their leaders.

# The Illustrated Socratic Series

## 4 Poison Conspiracy Damage Control

<http://jagannatha.com/poison-conspiracy-damage-control-1/>

The vindictive individual who started the Poison Conspiracy fraud was Nico Kuyt. He had a lot of damage control to do after the release of the movie/book DECEPTION. It isn't possible for him to address the hard questions that need to be answered for anyone to take his hallucinations seriously, so he resorts to name calling and spewing whatever his sycophant followers want to hear... irrelevant of what is true. This chart gives examples of that as well as a dozen other examples of the damaging comments made about the P-Con from other prominent Vaishnavas.

## 5 Hair Studies are NOT Irrefutable Proof

<http://jagannatha.com/hair-is-not-irrefutable-proof/>

Dr. Morris provided several disclaimers about the numerous critical settings he had to make on the NAA machine when he tested Srila Prabhupada's hair for arsenic. The cadmium readings he deducted from those tests are so beyond normal, any reasonable man would demand the evidence be cross examined and additional blind testing be done but that never happened. Those who lack such prudence and instead leap immediately to allegations of murder are acting ethically criminal, judiciously reckless, and Brahminically negligent! Such premature allegations destroy any sense of good faith in the task of determining what actually happened.

## 6 No Whisper Evidence

<https://jagannatha.com/no-whisper-evidence/>

Many audio forensic studies have been done on the ambiguous sounds that were captured from the shadows of the last BBT recordings ever made. Although there have been a lot of claims about self-incriminating whispers the ONLY thing all these experts agreed on is the presence of the single word poison! This proves absolutely NOTHING as it was a term frequently used among Srila Prabhupadas attendants. They discussed how some medicines had poisonous effects, how failing kidneys were emitting poisons, and the way some devotees would describe how emaciated Srila Prabhupada was by saying he looked like he had been poisoned.

Web: www.owlinvestigations.com

**OWL INVESTIGATIONS, INC.**

First Whisper  
male  
At approximately 2:00 Prabhupada speaks and says "Hum, you me fat"  
After that statement, whispered in the back ground is the following  
"Do This  
Uh Huh  
I swear all of it's going down  
(someone laughing)  
The poison's going down"

Second Whisper  
Unintelligible

Third Whisper  
"It's not poisoning"

Fourth Whisper  
The word poison is clearly audible. Other words are audible but unintelligible  
This proves NOTHING!

Conclusion:  
There is conversation about poison and the use of it. In my opinion there is certainly a basis for further investigation. Exhumation would settle the issue, although I am told that it is against religious beliefs.

A Forensic toxicologist and Homicide investigator should be consulted.

This was done by DECEPTION investigators!

Opinion:  
Based on my training and experience, the word poison is clearly audible and intelligible in several instances.

Respectfully Submitted,  
Tom Owen

What is Tom Owens actually reported about "Whispers" on Aug 8, 2001.

# The Illustrated Socratic Series

## 7 Dhira Govinda Self Deception

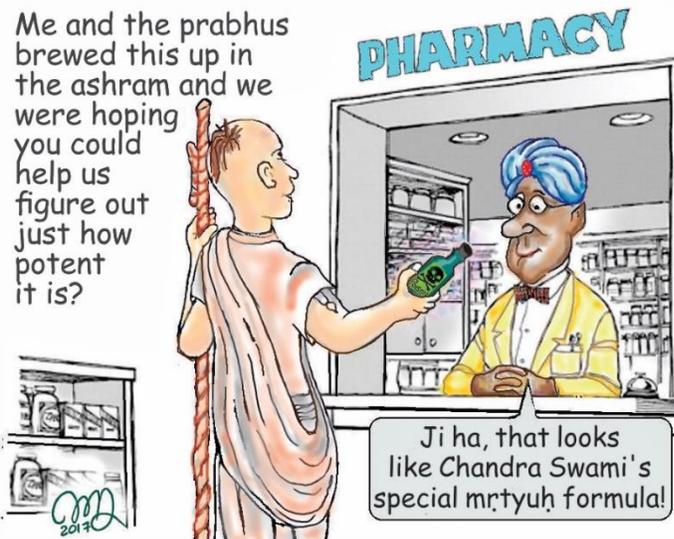

<http://jagannatha.com/dhira-govindas-self-deception/>

It is embarrassing that a man with a PHD in Behavioral Science would jeopardize his reputation endorsing the mad allegations of Nico Kuyt. Although Dhira Govinda uses the Socratic method to help his own disciples discover the repressed emotions that plague their world view, he avoids addressing the pivotal questions that expose the P-Con fraud by waxing on about his own distorted “Feelings & Opinions”. This Meme is excellent proof of why psychological and therapeutic communities agree that: “You cannot be your own therapist” We learn here how personal biases, blind spots, emotional entanglement, and false pride has eclipsed Dhira Govinda intelligence and ensconced his reputation on the wrong side of history.

## 8 No Cadmium Poison Cases in 1977!

<http://jagannatha.com/no-cadmium-poison-cases-in-1977/>

One of the clearest facts that undermine the P-CON rumor is that in 1977, there was not even one case of anyone having ever been intentionally murdered by oral cadmium poisoning. This chart includes references to nine different world-wide health regulatory agencies and how none of them listed cadmium as a dangerous element in 1977. The Socratic question that continues to go unanswered is how would Tamal Krishna Goswami know how to perfectly mix administer, and monitor an elixir of cadmium to poison His Divine Grace 34 years earlier with absolutely no training in chemistry?

## 9 Study the Origin of P-CON Propaganda

<http://jagannatha.com/compare-authors-credibility/>

There is extensive evidence that confirms Nico Kuyt is a very disturbed individual. A tacit confirmation of this point is how Naveen Krishna and Dhira Govinda have tossed him under the bus and he shows up nowhere on their newly formed (*No*)Justice for Srila Prabhupada Foundation website. Yet despite the transparent effort to clean the liabilities out of

## The Illustrated Socratic Series

the P-CON campaign, they are still promoting the contradictory, manufactured pseudo-evidence authored by Nico. Despite his very crippled sense of reality, Nico fooled many into believing a vindictive rumor that a judicious study of the facts prove never could have happened.

Lord Krishna tolerated the abuses of Duryodhana for many years but at the end, it was so important to take him out he instructed Bhima to break the Ksatria code and kill him. Just as evil Duryodhana plagued the glories Pandavas, Nico Kuyt has perverted the glorious past times of His Divine Grace, A.C.Bhaktivedanta Swami Prabhupada. He created this terrible rumor to disrupt and undermine trust in ISKCON, and I speaking strongly against him to protect all the innocent people he has crushed in his pathetic quest for notoriety.

At this point, those who know neither Nico or myself might rightfully wonder who to believe in this standoff. They have every right question what my background and reputation is before they give any credibility to what I have documented. For that reason alone, this illustrated matrix provides relevant moments in the life's of both the person who authored the P-CON myth, and my 30-year career entrusted with a "Confidential" security clearance to work for the Navy Surface Warfare Center in Port Hueneme California.

### 10 What are the odds?

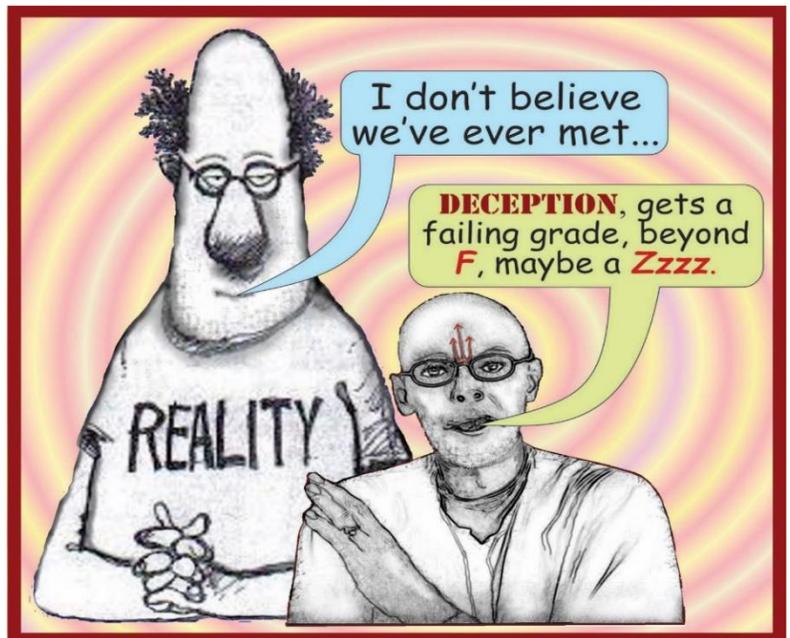

<http://jagannatha.com/what-are-p-con-odds/>

The P-Con consists of numerous essential milestones that are absolutely necessary for the fantastic narration to have been successful as alleged. This chart illustrates what the statistical likeliness is for each essential event occurring given a 50% probability. To arrive at an extremely conservative outcome, I then concede to handicap the outcome by reducing the total list of essential events by half! Even after giving this major concession, the odds of the poison conspiracy are: One to:1,048,578!

### 11 Nico Is The Alex...

<http://jagannatha.com/nico-is-the-alex/>

Alex Jones is a loud-mouth sensationalist who has made a career from promoting outrageous conspiracy theories that very deprived individuals believe. He is like the Website version of the National Enquirer tabloid! Nico is the ISKCON version of Alex Jones and the National Enquirer. They make their lively hood selling completely fictitious stories to those who are too foolish to be able to discern fact from fiction.

### 12 What You NEED to Know about Nico Kuyt

<http://jagannatha.com/nico-is-the-alex/>

Nico has published hundreds of pages attempting to destroy the honor of Tamal Krishna Goswami and Bhakti Charu Swami in particular. He has entangled himself in so many sordid affairs, his

# The Illustrated Socratic Series

routine response for anyone who disrupts his distorted sense of self is to lambast them in retaliatory scorn and slander. This is a case where Chanakya pundit would say: *“It is appropriate to pay Nico in his own coin.”* That is what this section is all about and Chanakya would endorse with the confirmation: *“For which there is no sin”*

Nico’s own daughter, Suddha Sattva, describes her father as one who suffers from a Narcissistic Personality Disorder, and everything after that is more shocking, ugly and evidence of a very sick mind. Those who believe there was a P-Con should read this compilation to understand what Suddha Sattva concluded as follows:

*“Nico’s grandiose fantasies at the moment revolve around the theories of Srila Prabhupada’s poisoning. He dreams that he will be the big shot that solves the case and puts the poisoners in jail. He thinks he is taking on the GBC and that he is a threat to them.”*

<http://web.archive.org/web/20080102030936/http://www.nomissionnomercy.com/nico-kuyt-aka-nityananda-das/>

## 12 Nico Burnt-Pie No-Logic Exposed Nov 2022

<http://jagannatha.com/nico-burnt-pie-logic/>

### 11.1.1.1 **idence Reward if You Already Have Evidence Now?**

If the *T-Com* already has adequate evidence to prove a P-Con, why do they post a \$50,000 Reward for More Evidence?

### 11.1.1.2 **David Xu's Victim Tasted Cadmium & Immediately Got Ill!**

David Xu's attempt to poison his co-worker was pretty much exactly what the *T-Com* alleges happened to Srila Prabhupada. Yet his victim not only tasted the adulterated water but also immediately experienced painful symptoms. Srila Prabhupada had NO symptoms of cadmium poisoning.

### 11.1.1.3 **Where is Just One Expert Who Concurs with the P-Com Story?**

The highly respected toxicologist Dr. V.V. Pillay was kind enough to review the medical evidence used to prop up the P-ConN. He offered his comments and opinions in the form of video testimony.

He concluded: *“I am not convinced that it is a case of poisoning, or it is malicious poisoning. I am not convinced at all. So that is how I would like to conclude.”*

There is not even ONE professionally willing to put their career on the line to rationally explain any aspect of the P-Con Fraud.

### 11.1.1.4 **Identify 108 Alternative “Qualified” Leaders for ISKCON**

The *‘T-Com’* has clearly stated they believe the entire ISKCON leadership is corrupt to the core and needs to be replaced.

*“We challenge the entire ISKCON leadership... admit you are disqualified to lead Srila Prabhupadas institution and then resign.”* *Crime of the Millennia Video Propaganda At 19:08.*

Who, specifically, would they prefer to fill all the seats that would be left vacant if the current administration were to all be removed?

## 11.2 **Additional valid questions that require clear answers:**

1. How did very 24/7 publicly visible individuals with personal servants like Tamal Krishna Goswami, Bhakti Charu Swami, Jayapataka Swami, and Bhavananda find the time and place to make the elaborate arrangements necessary to conduct a P-Con without anyone ever asking: *“What ya doing?”*
2. How could Srila Prabhupada have been poisoned by cadmium when he has absolutely NO symptoms, specifically in regards to his unaffected bones!
3. Why do so many ignore all the obvious fraud and factual research that confirms how fraudulent the P-Com is and how it was obviously created to attract many innocent individuals into contributing to this public nuisance. ?
4. If there was significant evidence of malicious intent why wasn’t there any attorney found willing to take up such a visible case? (Especially considering how visible this case would especially for a young attorney wanting to catapult his career forward and how much energy was spent trying to find such a person?)

Bone deterioration from cadmium poisoning.

## The Illustrated Socratic Series

5. Nico ran from Fiji like he ran from North Carolina when his karma caught up to him. Why would any stable person with integrity be inclined to support the intentionally promoted lies offered from individuals with notoriously bad reputations, over the massive number of reasonable testimonies offered by and confirmed by a wide array of tyagis who are loved and respected by thousands?
6. Why would anyone give more credibility to Nico's boldface, vindictive, and contemptuous lies over the testimony of nearly every senior disciple who is still supporting ISKCON? Are the people who do this so bigoted that they believe everyone else is so corrupt they have plotted to covering up such a horrible murder because they have their own agenda? The more rational way to explain that type of such a dysfunctional attitude is explained by applying the *atmavan manyate jagat*. They see what is in themselves!
7. What is driving so many individuals to prematurely dismiss **DECEPTION** without even reviewing the contents? This too reflects something very unstable, insecure, lazy, or dishonest about all of those who are so traumatized they cannot help themselves from doing that!
8. **DECEPTION** provides a lot of evidence exposing how contrived both the whispers and the Cadmium allegations are. Many claim to want to know what the true is about this subject, but then they ignore these important facts. How honest is it for someone to keep rehashing the same distortions that **DECEPTION** has specifically identified, without ever even attempting to address the evidence that illustrates how these contrived allegations are unfounded?
9. Like the heavy reliance on Pseudo-Science, why is so much attention given to Harry Barns crazy Holocaust denial propaganda? What does that tell us about those who apparently believe in his prejudicial efforts to convince the public that the Germans did not systematically kill six million people from the Jewish faith!
10. How can *promoting a completely fabricated historic revision* of Srila Prabhupada's departure be rationalized in as a noble way to further glorify him? Since when is it better to support a lie than to tell the truth?
11. How can anyone with even a moderate education rely on anything Nico says as correct, especially when he has a long and wide standing reputation for lying, cheating, and knowingly misrepresented the facts even when under oath, on a witness stand in Orange County Superior court in 1983? As confirmed by the Honorable trial Judge Jackman who stated for the record: "[First and foremost, this court must state that in it's view, the conduct of the defendants, \(Nico Kuyt\) towards the plaintiffs was outrageous](#)"-DECEPTION 14.1.14 Nico Kuyt exposed for Perjury in Court!
12. The average person is more inclined to do what is easier at the cost of sacrificing what is right. That is why ISKCON-Bashers have been able to get so much traction from the rationally challenged. It is easier to keep the door open for this frivolous ploy then it is to consider the whole picture--- the way a real court and jury would. Those who possess personal integrity would never consent to the easier path if it is dishonest. In this case it may be difficult for the ego to acknowledge a mistake, but a real brahmana has no hesitation in doing so because they are unaffected by honor and dishonor.

David Xu: Convicted Cadmium Poisoner
