

3 The New JFSPF ISKCON-Bashing Fib-Site

3.1 Trust Us! We Know Justice!

On September 16, 2024 you created the website “*Justice for Srila Prabhupada Foundation Inc*” (JFSPF) with Naveen Krishna. Under the Vlogs tab at that website you come right out and condemn Tamal Krishna Goswami for poisoning Srila Prabhupada

“Tamal, as the chief poisoner suspect (demonstrably beyond a reasonable doubt), “I

It is interesting that you speak with such certainty, because earlier P-Con propaganda is more cautious.

“..absolutely certain proof is still lacking as to who did it, - KGBG 358

“I don't know if we will ever know who did it, - KGBG p762 & HGSP Overwhelming Positive Comments

Claiming to be a *simple-minded, conditioned soul with faulty perceptions* is not an adequate excuse to completely trash the presumption of innocence and speak like a hitman! Based on your own prejudicial interpretation of unsubstantiated evidence you have fully condemned Tamal Krishna Goswami, revealing your vengeance and escalating this dispute! Is this your idea of “*Satvik Communication & Justice?*” In our civilized world, everyone has the constitutional right: “*To be treated as innocent until proven guilty!*” It’s a lot easier to jump directly to the guilty verdict when you disregard the proper legal process which you apparently think you have the right to do...*because it feels right?*

3.2 A Gross Misnomer

During the spring of 2025 JFSPF began posting an array of extremely prejudicial ISKCON-Bashing tirades further confirming that this new site was not at all interested in seeking Justice. It is now evident the agenda here is to attract that 20% of the population which lacks the ability to function coherently within the boundaries of acceptable social decorum. Although there are a variety of other Fib-Sites that serve that target audience, it appears you are attempting to give that difficult portion of society a more respectable façade to be heard.²

On April 25, 2025 you proudly announce how you filed a 850 page complaint with Garg & Garg about the child abuse controversy in ISKCON. It seems doubtful this will produce any tangible results beyond satisfying your need for vengeance which has been festering in your since the turn of the millennia. The fact that you are also now waging complaints about the book changes indicates that you intend to grab whatever material you can find to promote JFSPF as the place to go to for ISKCON revenge.

But Conspicuous by its absence is any acknowledgement of Nico although he is one of your mentor guru and biggest contributor! This suggests that you finally realized how Nico’s well documented horrible reputation is more of a liability to your misguided efforts than an asset. This was a wise public relations decision for JFSPF but there is no place for such a dishonest stunt on a site that claims it seek Justice!

A week after surreptitiously publishing Nico’s *Mayeswara’s Massive Misinformation* invective you published Nico’s fatuous screed “*DECEIT IN GBC BOOKS “NOT THAT I AM POISONED” AND “DECEPTION” Part 1.* on Sept 9th, 2025 and the patten became obvious.

¹ <https://justiceforsrilaprabhupadafoundation.org/vlogs/> (Tuesday, 19th August 2025) ISKCON GBC:ACTIVE COLLUSION SILENT CONCENT

² Nico solicited the lower fifth of the public to help collect the pseudo evidence he compiled to publish “*Someone Has Poisoned Me*” in 1998 Tim Lee has been spewing reckless accusations about pervasive homosexuality, pedophilia, and child abuse since the early 1980’s under the pen name PADA. There have been other less prominent ISKCON-Bashers who rise and fade over the years who fuel the vengeance of the cognitively challenged, but for the most part, all of these individuals have been so aggressively obsessive, and dysfunctional they have lost all credibility with mainstream society.

You have run out of original material so now intend to keep you audience engaged with the same failed arguments that were created in the Nico's fantasy world. I felt it was time to inform the public what you have not been honest enough to let them know in a one page summary called. *"Can Dhira Govinda and JFSPF Be Trusted?"* This document was sent out widely and published on Akincana Gocara: (<https://akincana.net/2025/09/16/ongoing-poison-conspiracy-fraud/>) Therein I predicted :

"...the JFSPF Fib-Site will continue splashing Nico's subsequent parts 4-10 over the next several months in a desperate attempt to discredit DECEPTION."

That is exactly what you have done and obviously intend to continue doing thus confirming that your agenda is not Justice, but yellow journalism, slander, and excessive faultfinding!

It is important for me to clearly state here that my position is NOT to defend anyone who has engaged in child-abuse, embezzlement, a misuse of ecclesial trust or any other form of legitimate wrongdoing within ISKCON. My primary focus is to defend those you have egregiously accused of murder based on little more than your own simple minded, muddled interpretations and feelings!

Question? What is your professional opinion of the book **DECEPTION** which offers court-worthy evidence that proves Srila Prabhupada could not have been poisoned as has been alleged?

"To me, the interpretations you give in your book, based on my reading, simple-minded as I may be, conditioned soul that I am, it seems clear, to a significant extent, it sounds quite twisted, strained and comes across as very muddled."

-Dhira Govinda Oct. 14, 2021
Letter to mayesvara dasa.

INJUSTICE FOR SRILA PRABHUPADA

"I feel complete in our exchange regarding this topic."

-Dhira Govinda Nov 26, 2021 - Letter to mayesvara

mayesvara dasa ·
mdjagdasa@gmail.com

But, based on the numerous examples of fraud that is readily evident on your inappropriately named competitive ISKCON-Bashing Fib-Site, I intend to henceforward refer to you Fib-Site the more appropriated title of *"Injustice for Srila Prabhupada Foundation!"* (IFSPF)³

3.3 The IMPACT of BAD Association

The more you campaign for the P-Con the more evident it is how corrosive your association with Nico has had on your acumen. The title to section 3.3.7 in **DECEPTION** is called: *"Mr. Unknown and His*

³ I intend to refer to the so-called JFSPF as IFSPF from this point forward. Not doing so would be a tacit endorsement of the contents found on that site which is not doing any justice to Srila Prabhupada, his disciples or his movement. It is blatant, full scale, unabashed, Vaishnava aparada! You Dhira Govinda, may think that you can put lipstick on a pig and expect that it will fool the public, but all you are really doing is proving how much you despise ISKCON, how crippled your thinking is, and how philosophically bankrupt you have become. Those who are truly humble are eternally grateful to those who introduced them to Krishna Consciousness despite events that occur along the way. If you had any understanding of this important Vaishnava etiquette, you would immediately take down the IFSPF in good faith and spare yourself the embarrassment and potential legal complaints heading your way for Corporate Defamation.

Cousin Anonymous” and it provides numerous examples of how many outrageous statements have been published based on nothing more than: *“Someone Said!”* The reason hearsay is not acceptable in respectable courts is because it opens the door for people like yourself to claim whatever you want without providing any way the content can be confirmed. In your case you fail to give credit where discredit is due because, on some level, you know that Nico is not mentally stable! Yet you have become so dependent on him you are committed to continue publishing the content of his most recent failed literary efforts that he can’t even distribute via the internet in digital format! On August 19, 2025 IFSPF published **ISKCON GBC: ACTIVE COLLUSION, SILENT CONSENT** which was again directly lifted from two different sources both of which were authored by Nico!⁴

This exact same August 19th commentary published on IFSPF was also published just five days earlier by another notorious ISKCON-Basher, Tim Lee,⁵ on his hyper critical blog.⁶ Yet, as odious as Puranjana is, at least he has the integrity to properly acknowledge ~~“Nityananda”~~ (Nico)⁷ as the author of this particular diatribe!

Failing to properly give credit to the content you publish is not just deceptive and sleazy, it is also cowardly. If you are so enamored with Nico’s wandering rants why aren’t you willing to identify him as the author when you popularize his vindictive garbage on your newly launched ISKCON-Bashing Fib-Site? Plagiarizing his work reflects very poorly on your character and is inconsistent with the “honest”⁸, self-image you are proud to proclaim yourself to be!

The 6th century BCE philosopher AESOP provides practical advice that would behoove you to consider. *“A man is known by the company he keeps.” The same principal is given by Krsna in the Gita: It is Saṅgāt sañjāyate kāmāḥ - our desires arise from the company we keep.*

The conclusion is you have clearly established yourself to be of the same disreputable caliber of Nico Kuyt, Tim Lee and the clan of disturbed ISKCON-Bashers who can’t seem to find anything nice to say about anybody who isn’t part of their tribe. Is this really the type of company you wish to be an ambassador for? Is this your idea of “Better” association then the tens of thousands of devotees who are happily situated in ISKCON, have affectionate working relationships with their respective spiritual masters and had dedicated themselves to propagating the holy name?

3.4 IFSPF DARVO Duplicity

On Aug 26, 2025 IFSPF dispatched: **ISKCON: SILENCING TRUTH WITH LIES AND MISINFORMATION**. This editorial confirms the deep emotional contempt you have for ANYTHING ISKCON. It is filled with so many projective DARVO⁹ clauses it confirms a chronic prejudicial blindness that a man who teaches others about how creating relations that work effectively

⁴ The article published on IFSPF, it is a grab-bag of resources authored by Nico. The middle portion comes from page 423 of his third book, “Pursuit Of Srila Prabhupada’s Poisoners” and the end portion comes directly from chapter 82 of his first book Hidden Glories.
[https://justiceforsrila-prabhupada-foundation.org/vlogs/August 19, 2025](https://justiceforsrila-prabhupada-foundation.org/vlogs/August%2019,%202025)

⁵ At one time Tim Lee was known as Puranjana. He seems to be in competition with Nico Kuyt for being thought of as the most repugnant individual to have the hubris to play Vaishnava. As soon as it was possible to send messages via the internet Tim got the reputation for fitting the word pedophile in every paragraph he wrote. He has such an obnoxious reputation even the unprincipled RTviks can’t stand him! <https://www.prabhupadanugas.eu/news/?tag=tim-lee>

⁶ Here I provide one example of how IFSPF is so desperate for material they show how they are willing to stoop as low as plagiarizing Tim Lee’s obsessive rants! There are actually many other examples of plagiarism from irreputable sources making IFSPF just another ISKCON-Bashing Fib-Site. I do not wish to popularize the material ISKCON-Bashers are obsessed with publishing but to prove my point I reluctantly provide the following link: <https://krishna1008.blogspot.com/2025/08/nityananda-iskcon-gbc-active-collusion.html>

⁷ Srila Prabhupada was kind enough to initiate Nico Kuyt with the name Nityananda prior to when his psychopathy began to fully develop. Since then Nico’s behavior has been so anti-social, narcissistic, and psychotic, I feel it is offensive to contaminate Lord Nityananda’s name with such an aberrant individual. Therefor I always refer to him as Nico, and request others to do the same for the same reason.

⁸ Free from fraud or **DECEPTION** – Merriam Webster Dictionary

⁹ DARVO (Acronym for “Deny, Attack, and Reverse Victim and Offender”) is a reaction that perpetrators of wrongdoing, such as sexual offenders may display in response to being held accountable for their behavior. Some researchers indicate that it is a common manipulation strategy of psychological abusers. DARVO is essentially a weaponized form of projection + gaslighting.

should be ashamed to publish¹⁰. For clarity I have identified these few gems (in green) extracted from this Aug 25 document. All these clauses are consistent with typical P-Con pretense which is characteristically pregnant with hypocrisy:

1. “(Revelations from individuals like Nico are) ...buried under campaigns of character assassination.”- The greatest character assassination comes in the form of hundreds of pages that have been printed deriding Tamal Krishna Goswami which culminate in Nio’s repugnant *SPHG Bk2, Chapter 212 . “TAMAL’S SINISTER REFORM AND RENEWAL”* The vast majority of the material presented to deride Tamal Krishna Goswami comes from Nico’s most frequently cited source of material, *Mr. Unknown and His Cousin Anonymous*¹¹
2. “(The leaders are not wise, they are)... charismatic deceivers and architects of defective doctrines.”- The P-Con is the most defective doctrine ever contrived and it was created very intentionally to deceive and manipulating the emotional needs of wounded individuals seeking vengeance. You exploit the vulnerability of those you guide in Satvatove seminars by deceiving them with the extreme prejudices you have towards Srila Prabhupada’s disciples.
3. “Devotee discussions are not guided by facts/truth, but by the seduction of fallacious institutional narratives” – This is just a broad sweeping personal projection consistent with the deep seated bias interpretation you have about anything ISKCON. I have provided numerous examples of how the P-Con is not guided by facts/truth but by fallacious personal narratives from individuals like yourself... yet here you point the finger elsewhere?

Those seeking truth embrace challenging questions with responsible answers and there has been absolutely NO evidence of that from you or anyone promoting P-Con allegations. This evasiveness has compelled me to write this open letter because the most seductive and fallacious narrative to have ever been foisted into the Vaishnava community is the rumor that Srila Prabhupada was poisoned!

4. “Truth becomes elastic, contorted ...the pretense of holiness, and shadow devotion.”- This is a case of the contrived truth calling the elastic truth false! We are still waiting for you to present even ONE case of intentional malicious poisoning using cadmium prior to 1977 and yet none has been found!

Who are YOU, who claims to be simple minded and conditioned, to accuse others of pretense and shadow devotion! “A pure devotee never thinks himself as great; he always thinks that other devotees are greater than himself.” – Nectar of Devotion Chp. I

5. “ISKCON exploiters...armed with bluff and word jugglery, Anyone can attend any ISKCON temple function as often as they like and often get a free meal at the same time without ever having to open their wallet. Yet before you allow anyone to attend even an introductory Satvatove program you require an

¹⁰ Recall from chapter one that one of the book titles I critiqued from Dhira Govinda is: “*Relationships That Work*”

¹¹ The use of unconfirmed sources is so prevalent in the P-Con that a whole chapter of examples is provided in Section 3.3.7 of DECEPTION and is called: “Mr. Unknown and His Cousin Anonymous”

upfront payment of hundreds of dollars! It is the IFSPF-Fib-Site that is now publishing hyperbole and bluffing nonsense in an attempt to keep the P-CON alive while providing no-place for anyone to response to what gets posted. For five years you have avoided addressing the essential questions that exposes the gross **DECEPTION** you are engaged in!¹²

6. ...they misinterpret Srila Prabhupada's otherwise clear instructions, cunningly using them to promote themselves. Here your envy is caked so thick it has completely blacked out the potential of you shining brilliant soul! The IFSPF is used to promote *YOUR* offensive unfounded suspicions and is a gross violation of the following clear instruction Srila Prabhupada gave:

"Now all my disciples must work combinedly and with cooperation to spread this Sankirtana Movement. If you cannot work together then my work is stopped up. Our Society is like one big family and our relationships should be based on love and trust. *We must give up the fighting spirit and use our intelligence to push ahead. You should accept help from your Godbrothers*" -
Letter to: Upendra -- Los Angeles 6 August, 1970

4 Inquiring Minds Want to Know

The question on the street is how you can be so intelligently capable in so many extraordinary ways, and yet let the immature behavior of a few psychopaths¹³ deprive you of the huge potential available to you via ISKCON's remarkable and expansive worldwide success?¹⁴

4.1 A PHD is Expected to be More Discretionary

There appears to be a lot of jilted individuals who blindly accept P-Con propaganda without ever checking to see if it is correct. I expect that from lazy and emotionally unstable sycophants, but you have a PHD in human behavior and are expected to not fall for such foolhardy drivel. Yet your own words belie your ability to apply your brain in regards to this pathetic rumor.

"Srila Prabhupada clearly expressed concern that he seriously considered the possibility that he was poisoned" – KGBG p378

The fact is Srila Prabhupada never said he was poisoned! What he said was:

6:18 Prabhupāda: *Ki jani ki . . . tobu bhalo je keu poison kore ni . . . hoteo pare. (I don't know what happened. . . Someone says that I have been given poison. Maybe.)*¹⁵

Flooding social media with the allegation that Srila Prabhupada said he was poisoned and then embellishing it with how he was concerned about it is typical type of propaganda that has been at the root of the entire P-Con fraud. Naveen Krishna at least has the integrity to admit that Srila Prabhupada never said: *"They have poisoned me!"*

¹² Even after 5 years, there is still no willingness to answer the specific questions addressed in Chapter 11: "Why So Much P-Con DECEPTION?" Specifically sub-section:11.6.2 "Important Questions Deserve Coherent Answers." SEE: <https://jagannatha.com/questions-for-real-brahmins/>

¹³ I chose this word very carefully and deliberately because it is the proper word for the type of behavior that lies behind the creation and propagation of the odious P-Con fraud. **A Psychopathic personality**, is a personality construct characterized by impaired empathy and remorse persistent antisocial along with bold disinhibited and egocentric traits. These traits are often masked by superficial charm and immunity to stress which create an outward appearance of apparent normalcy. <https://en.wikipedia.org/wiki/Psychopathy>

¹⁴ ISKCON-Bashers do all they can to make it sound like it is collapsing, but this is just more evidence of their prejudicial view of reality. The number of worldwide temples have increased from approximately 100 when Srila Prabhupada departed in 1977 to over 800 in 2025

¹⁵ Vanisource: https://vanisource.org/wiki/771108_-_Conversation_B_-_Vrndavana

“He (His Divine Grace) never said, ‘... They have poisoned me.’ It is we (investigating)⁽¹⁾ with facts⁽²⁾ and hindsight who see it as a cabal at work⁽³⁾” -JFY 70

- (1) As one of the investigators, Naveen admits here that he is one of the individuals responsible for authoring the false claim: “Srila Prabhupada said he was poisoned!”
- (2) Not very many facts involved here but a whole lot of bitterness, resentment, suspicion, speculation, contempt, anger, and hurt etc.
- (3) “According to the logic of *atmavan manyate jagat*, everyone thinks of others according to his own position. -SB 5.8.16p¹⁶

Another example of the repetitive propaganda that has perverted your thinking is the mistruth that Srila Prabhupada experienced “*mental distress*” after you claim that he realized he was a victim of foul play.

“Apparently the **mental distress** is not from the pain, which is coincidental, but is due to another cause which Srila Prabhupada soon revealed in the next section of conversation- **it was the talk of his being poisoned.**” – KGBG p142

The authors of this nonsense relies on the reader never checking anything! Statements like this attract blind followers who then echo such mendacious muses to other gossip-gobbling simpletons. In this case we need only study the recorded conversations carefully to discover that HDG never complained about mental distress! It was Bhavananda who projected that anomaly into the conversation:

10:00 Bhavānanda: Prabhupāda was complaining of *mental distress* this morning also. ¹⁷

4.2 As I Read this Invitation, I Found Myself Asking...

On September 5th 2025 I received your Satvatove newsletter advertising the Three Day Intensive Workshop, Foundational Seminar you planned to conduct on Sep.12-14 in Gainesville Florida. This provided a very convincing example for why a therapist is incapable of perceiving their own blind spots, personal effectiveness and ethical shortcomings. You provide a description of what material you will cover on day two, which raises the question if you are capable of practicing what you expect of your students who are often far junior to you!

Day 2 – Courageous Introspection⁰

Step into the fire and meet yourself.¹ Now the real work begins.² With clarity and compassion, we dive into unconscious patterns, limiting beliefs, and outdated strategies for survival.³ You’ll ask: Is this the life I consciously choose?⁴ This is your invitation to shed the masks and reconnect with the truth beneath all conditioning.⁵ - “We go into the shadow—not to get stuck there, but to liberate the power it holds.”⁶

0. Are you a: “*Do-as-I-say, NOT-as-I-Do*” leader, or are you courageous enough to do your own personal introspection?
1. How willing are you to step into the fire and meet yourself to explain why you continue to cling to the incomprehensible P-Con beliefs that defy all logic and reason?
2. We are waiting for you to start this work, because you have been avoiding it for the last 25 years!
3. This letter provides numerous examples of the unconscious patterns, limiting beliefs and outdated strategies your pride has clung to for survival. When will you perceive how these things have driven you to behave like a complete fool?

¹⁶ **DECEPTION** c/o mayesvara dasa Chapter 7. What was HDG Communicating? Part 7.2 Heart of the Controversy: Dialogue with HDG, Section 7.2.2 HDG Note 1: All Concur, HDG Did NOT Say It! p. 210

¹⁷ Vanisource: https://vanisource.org/wiki/771109_-_Conversation_D_-_Vrndavana

4. Is being praised by depressed, dysfunctional, emotionally disturbed, and vengeful, ISKCON-Bashers really your preferred group of associates?
5. You've been traumatized by the GBG. So what! You are not the only one who has had that experience. But how we chose to behave when mistreated is what makes the difference between the average person and a great soul. Srila Prabhupada was also disgusted about how his Godbrothers failed to honor Bhaktisiddhanta Saraswati's instructions, but in the end he fell at their feet and requested forgiveness for the harsh things he said about them. He was so committed to making relationships right, he set up funding accounts to help them rebuild their temples and now all of Mayapura is glorious! You have chosen the path of dark psychotic examples like the Pedophile Puranjana, you mentor Neurotic-Nico, and the anarchist RtVik-ISKCON-Bashers. Perhaps it's time to follow Srila Prabhupada's example!
6. Your Well-Wishers are waiting anxiously for you to free yourself from the emotional shadows that have perverted your reasoning skills and are causing you to act in disgraceful ways. We are all praying that you will have the fortitude of real leadership and liberate yourself from the mountain of ugly "Grungies" that have infected your otherwise brilliant and pure soul!

4.3 Persona Plea: Dr. David Wolf... Heal Thyself!

Dhira Govinda, you have some serious explaining to do if you wish to retain any credibility with the rational world! Despite your patina of cooperation, stonewalling this important opportunity to address the issues you have so far avoided, suggests that you are as delusional as the pathological liar Nico who tells us:

*"I am open to being corrected and chastised by anyone."
 "I have tried not to be prejudicial in this presentation of evidence"
 "I ask for pardon if that has not been accomplished"
 "I have tried not to be prejudicial"¹⁸*

Since you have your own Satvatove clan of disciples, your dishonest behavior is far worse than his mendacious proclamations. NOBODY looks up to Nico, but you have a large audience of followers who trust you! You are setting a very bad example for all who turn to you for leadership qualities! How can you expect your clients to explore hidden portions of their wounded sub-consciousness when you are unwilling to peer into your own deep dysfunctional prejudices?

4.4 Dodging Responsibility

DECEPTION provided over 500 pages of objective facts for you to consider prior to deploying your massive IFSPF assault against ISKCON. But instead of addressing the hard science that exposes the P-Con Fraud with fact based rebuttals, all you could muster was *YOUR Interpretations, YOUR point of view & YOUR perceptions & YOUR Opinions*. That is subjective evidence, prejudicial and of very little value in a court-room or to anyone serious about making sure the historians get this debacle correct! Your sentimental response is irrational and not symptomatic of humility. It is how narcissists act when their prejudicial beliefs are challenged!

Although this is a personal letter to you, Dhira Govinda, it is presented as an open letter so others can understand what you have been with-holding and how perfidious you have become. In the past when we discussed Nico, you acknowledged that he is "Not Right" and how difficult he is on even good days.

"I too often find the way that ~~Nityananda~~ (Nico) Prabhu presents things to be very distasteful, disagreeable, unnecessarily unpleasant. ...In your correspondence I notice in you

¹⁸ All of these things have been cited elsewhere in this Open Letter by Nico.

what I perceive as a healthy fear of committing Vaisnava aparadha, and an encouragement for others to also evince such a healthy fear. Looking in myself, I see that I lack such a fear. It's just not there:" - Letter from you dated October 26, 2017 you concurred:

The way you so casually dismiss any concern for Vaishnava Aparada is the most disturbing thing you could say if you consider yourself to be an aspiring Gaudia Vaishnava. This reflects the mood of a madman consumed with the mindset of: "Revenge at ANY cost."

"Krsna does not accept the worship of a sinful person who blasphemes Vaisnavas. VedaBase CB Antya-khanda 4.362

There is one good thing established by your willingness to acknowledge how unstable Nico is. That confirms you still have the ability to acknowledge how his association has impacted your behavior, but you have not yet come to that point. It's time for you to let the pendulum swing back to the center. Only then will you be able to free yourself from the grip of the vasista-siddhi puppet strings. It's time to tear down the walls you have erected between yourself and those who are properly situated.¹⁹

You have fully embraced the P-Con allegations with the rationalization: *"One should accept Gold even from a filthy place."* Yes, but my ongoing question is where is the gold and why are you so reluctant to accept my P-Con research with an equal mind? You may not recognize me as having any authority to speak on behalf of ISKCON, but why should that even matter if you really are committed to knowing what the final departure pastimes were?

5 Embarrassing Svengali Trance!

Just like ghost-haunted person, he talks so many nonsense things, similarly; The Bengali verse is: piçacé päile yena mati-cchanna haya mäyā-grasta jēvera haya se bhāva udaya [Prema-vivarta 1] When a living entity is conditioned by material nature, he is exactly like a person haunted by a ghost.- Srimad-Bhagavatam 2.9.1-12 – April 29, 1972, Tokyo

5.1 Vasista-Siddhi & Narada Podcast

The Vāsītva-siddhi potency is one of the eight principal mystic powers that allows a person to subjugate and control other beings and forces. It appears that Nico has attained this boon and uses it to spread his madness which seems to explain what happened to you!

"If one is in good association he can develop the mode of goodness, and if in bad association he may develop the mode of darkness or ignorance. Nothing is stereotyped. One can change his habit by good or bad association, and one has to become intelligent enough to discriminate between good and bad." -SB 2.10.41p

Why else would you say such astonishingly foolish things not just once, but repeatedly, and then keep publishing such embarrassing comments on the internet for all the world to see and will haunt and humiliate you forever?

An example of how your cognitive ability has become subjugated is evident when you blindly repeat what is said without taking the time to see if it is even true. Nico says: *Srila Prabhupada's health history and symptoms fits well with cadmium poisoning.*²⁰ and you robotically repeat it, nearly verbatim, every chance you get! But; *"Is this true?"*

On September 26, 2024, you agreed to be publicly interviewed for a 1:32:53 minute podcast on Narada's "Hare Krishna Project" Episode 142. About halfway through that discussion you said:

¹⁹ "Even if one commits the most abominable action, if he is engaged in devotional service he is to be considered saintly because he is properly situated in his determination." -Bhagavad Gita As It Is, Chapter 9, "The Most Confidential Knowledge" Text 30.

²⁰ METHODOLOGY "Interpretations On Srila Prabhupada's Cadmium Levels", Nico's Website, 2024
<https://prabhupadatruithcommission.org/interpretations-on-srila-prabhupadas-cadmium-levels>

43:30 Srila Prabhupada's **symptoms are completely consistent with cadmium poisoning!**

35:50 **Cadmium poisoning explains everything**

<https://www.youtube.com/watch?v=za17YkGc7eo&t=2s>

If you are seeking to know what really happened in November 1977, why would you agree to participate on a podcast that has a Geraldo Rivera reputation for being sensational and bombastic but refuse to show up for a professional level, Truth Summit conference, that the scholar Garuda proposed?²¹ Is it because Narada's target audience is predominantly ISKCON-Bashers and you know they will blindly accept whatever you say as long as you portray the GBC like villainous murders?

A good investigative journalist would ask you to elaborate on what symptoms you are referring to that are completely consistent with cadmium poisoning? If they were an informed reporter they may ask you explain how it would be possible in 2017 for Srila Prabhupada's symptoms to be consistent with cadmium poisoning, when in 1998 it was alleged his symptoms were consistent with arsenic poisoning!²²:

"Srila Prabhupada, as we shall see, *clearly displayed the symptoms of arsenic poisoning*," -SHPM p 60.

"Srila Prabhupada *displayed the symptoms of arsenic poisoning*." -SHPM p85

"Srila Prabhupada had many symptoms of arsenic poisoning." -SHPM p 351

Are you even aware of the fact that the symptoms of arsenic and cadmium are not the same? Those who take note of this type of radical flip-flopping see it for exactly what it is, intention **DECEPTION!**

This has been the process all along. The facts are irrelevant. The story drives the narrative and the end justifies the means. This has been the P-Con modus operandi all along. "Say whatever is necessary to attract the easily persuaded into believing that the leaders in ISKCON are horrible and they poisoned Srila Prabhupada!"

So now you are on the record saying the: "...**symptoms are completely consistent with cadmium poisoning.**" But Narada never asked you what symptoms are you referring to that makes what you said in 2024 correct and what was originally said in 1998 incorrect? So I am asking you to explain how you came to that conclusion? Were you just deferring to the questionable "Forensic Evidence" Naveen Krishna took five years of expensive phone calls to convince Truth Labs to produce?

Narada was in his own ecstasity hearing you disparage the GBC so he would never think of asking responsible questions of this nature. This appears to be the real reason why you agree to speak with him. His niche is with ISKCON-Bashers who are lured in when they hear confrontational statements like yours. That's the type of material which increases Narada's viewer ratings with the dirt-seekers looking for something to gossip about and he wasn't about to stop you from fueling this agenda!

5.2 Shin In Stomach²³ / Kiwi Podcast

About the same time Garuda was asking you to meet in Florida, you DID find the time to sit for an 2:44:45 minute interview with Sitapati Dasa (Josh Wulf) from New Zealand on his fledging "*Vaishnava Voices*" ²⁴ During this podcast you again made numerous ignorant statements that confirmed how terribly uninformed you are. Unlike the bobbing head Narada, Sitapati did challenge you on a few occasions, but for the most part, he also let you ramble on unchecked. To his credit however toward the end, he read a question posted by a listener called Christoher Briscoe who asked:

²¹ Garuda made a very nice Vaishnava proposal to host a Truth Summit in the fall of 2024. The details of that proposal are elaborated on in later chapters to this "Open Dhira Govinda Letter"

²² SHPM = "Someone Has Poisoned Me" Nico Kute's original assault on common sense published in 1998. Although this has been the war-cry adopted by the P-CON generals, they themselves admit Srila Prabhupada Never said it! You look for what you want to find and if it is not there you just make it up! (atmavan manyate jagat) **DECEPTION c/o mayesvara dasa Chapter 7. What was HDG Communicating? Part 7.2 Heart of the Controversy: Dialogue with HDG, Section 7.2.2 HDG Note 1: All Concur, HDG Did NOT Say It!** p. 210

²³ This goes beyond the usual expression: "Insert foot in mouth." You have shoved your shin all the way down into your stomach!

²⁴ Podcast #55. (March 25, 2025) <https://www.youtube.com/watch?v=1ZZDH4EJZdI>

2:25:32 Christopher Briscoe Comment: “One question that I heard from Mayevara dasa is if the evidence is so good (which I think it is), then **why has it not gone to a court?** Can Dhira Govinda say anything on that?

Instead of holding you accountable for responding to this important question, Sitapati pushed it aside and allowed you to continue pontificating unchecked:

2:25:45 Sitapati Dasa: before we answer that question we can go to this.. are there any other evidences?

2:26:27 Dhira Govinda: Well one area that I want to mention is one area of medical forensics. **A team of medical forensic examiners... again top team of medical forensic examiners have determined that cadmium poisoning explains Srila Prabhupadas symptoms, and other explanations don't. and so...**

Dhira Govinda.... What team of forensic examiners have testified that cadmium is the best explanation for Srila Prabhupada's symptoms? The few doctors employed by Truth Labs are NOT specialists in toxicology and nowhere do they testify that cadmium is the only way to explain for Srila Prabhupada's symptoms. All they have done is shamelessly rehash Nico's circumlocution about the physics of cadmium, how it can affect the body, how it accumulates in the hair, and how Prabhupada got weaker as time moved forward. They also prevaricate endlessly on the unconfirmed NAA reports from Dr. Moris and from that they make a lot of unsupported speculative statements which simply are not true!

When a highly recognized toxicologist was requested to comment on Srila Prabhupadas symptoms, he clearly stated that Srila Prabhupada did not have the two most tell-tale signs of cadmium poisoning!

Symptoms of Cadmium Poisoning

Cadmium attacks the bone and ...if it is chronic poisoning with cadmium, bone would have been involved in one of two conditions. One is called osteomalacia which is the softening of the bones, the other is osteoporosis where the bones become brittle. Both of them after the fact cause severe bone pain, weakness, and easy fractures, none of which I have come across here. ...the whole thing appears like somebody has already decided that **A: it is poisoning, B: we should say it is cadmium, so now what are the things that we can get to fit into this picture.** It looks like that. I am sorry to say. ...I feel that the whole thing has been constructed like that... You have already decided that you want to prove this. Now let us gather evidence to prove it. That I why I am really disturbed about this... the whole thing is a mess.

Dr.V.V. Pillay - Head of Analytical Toxicology AIMS Cochin, Kerala

Evidence of the Svengali trance that has arrested your intelligence comes out when you said that photophobia is a symptom of cadmium poisoning.

2:26:50 Dhira Govinda: Other explanation may explain some of the symptoms... but **they don't explain symptoms like photophobia** and things like that so the best explanation for Prabhupadas symptoms ... these experts concur,... they have seen thousands of cases and they say cadmium poisoning fits it precisely!

2:27:20 Sitapati Dasa: So **the Photophobia is the point you have brought up in the symptoms cluster so that's visible.** You can see the photo of Prabhupada... and of course he is wearing the sunglasses....

2:27:55 Sitapati Dasa: ...**he had developed the symptom of photophobia** where light entering the eyes was troublesome to him and that is not consistent with the cause of death that may have been listed on the death certificate like from complications as diabetes... but it is consistent with being poisoned with one of these...

2:28:11 Dhira Govinda: **Correct, yes the cadmium poison explains all the symptoms that diabetes and kidney problems explain, but the other constellation of symptoms, that the other attempted diagnosis don't explain...**

Photophobia was presented in the 1998 version of the P-Con script as a symptom of arsenic poisoning as well. If true, this logically means both of these elements cause the eyes to become extremely sensitive to light when they enter into the bloodstream. But is that what the experts in the medical industry tell us? Did you ever check to see if this is true before you went on the record to claim that **"cadmium poison explains all the symptoms."**

If you actually read **DECEPTION**, "cover to cover" (carefully) as you reassured me you did, you would have read the five pages in: [Section 3.6 Photophobia Symptoms Intentionally Misleading](#), & [3.6.1 Insidious Photophobia DECEPTION](#). Therein I fully expose how Nico made this all up in 1998 to convince us that Srila Prabhupada was poisoned by arsenic. When that failed to convince anybody and he upped his game in 2017 to claim cadmium was the poisoning agent, he just kept the photophobia symptom in place! His web of **DECEPTION** now reads:

CONCLUSION: *Photophobia is a symptom of cadmium and arsenic poisoning, but it is not seen with diabetes or kidney disease. – KGBG 258*

The problem with this statement is that I have not been able to find any reliable medical organization to confirm this claim! I invite anyone who believes otherwise to please produce even one single reference from ANY reputable medical organization that lists photophobia as a symptom of ingesting arsenic or cadmium as has been repeatedly claimed!²⁵ Until someone does so, we can rest very well assured that photophobia is NOT a symptom of consuming either of these elements!

This is just another stark example of the type of gross cheating that pops up everywhere when we study the P-Con carefully. It falls in place right behind all the Pseudo-Science I listed in **DECEPTION Chapter 4, "Characteristics of a CON", Section 4.2 "Conjured Pseudo Science Evidence."** There we find all the wacky things that have been presented as alternatives to REAL Evidence an attempt to convince us a murder has been committed!

DREAMS: *"...a former GBC had a dream about Srila Prabhupada's poisoning... When are you going to prove this poisoning?" -KGBG 450*

TANTRIC CURSES: *"It may be quite relevant to note that several of the ISKCON gurus have also been involved with tantric practices and "yogis." -SHPM 392*

ASTROLOGY *"...astrologers have posited that Srila Prabhupada's horoscope does support his being poisoned by his own servants, .." -KGBG 695*

FMRI BRAIN SCANS: *"(The fMRI Brain) SCAN is used by law enforcement agencies and by polygraphers, corporations, and they do so because it works for them" -KGBG 657*

REVERSE SPEECH ANALYSIS: *"The speech reversals (see Chapter 37-38) reveal arsenic poisoning" -SHPM 60*

VOICE STRESS ANALYSIS: *"It is the expert opinion of this Voice Stress Analyst that there was abnormal stress displayed in several portions (of recorded conversations of Tamal Krishna Goswami)" -KGBG 667 "...initial tests done on some of Tamal's statements...proved to be 75-80% deceitful due to high voice stress as was detected by the voice stress detector methodology." -KGBG 828*

Presenting this as evidence for homicide is laughable except for the fact that it is expected to be taken seriously! If you don't take this poppycock seriously then it's understandable why you are incapable of realizing that all the other so called P-Con evidence is just as forced and absurd! The challenges for you Dhira Govinda, is to explain all this smoke and mirrors and prove that *Photophobia is a symptom of cadmium and arsenic poisoning*. If you are a man of integrity, the alternative is to admit

²⁵ The most common form of cadmium poisoning occurs when it is air-bound and it enters the body through the lungs. Needless to say whenever there are a lot of pollutants in the air, it is also very common that it will effect the eyes, just as smoke does when sitting around a campfire. I am providing this footnote to clarify that the challenge is to find a medical reference that lists photophobia as a symptom that occurs when someone eats it!

you are a victim of a very compelling Svengali trance and stop perpetuating this unfounded non-sense!

5.3 Sitapati Follow up NOTE:

Although it was evident that Sitapati had been deceived by P-Con propaganda, I appreciated how he did not blindly accept the well-practiced mechanical answers Dhira Govinda gave when he interviewed him. He was astute enough to notice that the timeline of events impeached the damning allegations of the so-called whisper evidence.

1:50:13 Sitapati Dasa: *I would like to push back on that,...* I can't hear the claimed statements in the audio myself... the poison is going down, put the poison in the milk, why would they be saying that like in the room while they are talking about the poison?

1:50:57 Dhira Govinda: *it's NOT making sense to you* that they would talk about that...?

1:51:03 Sitapati Dasa: Yea, It seems to me the correlation of the time and the topic, would corollate...

1:51:16 Sitapati Dasa: ...where as the idea that there is a criminal conspiracy and they are literally whispering what they are doing it's like if you wanted to ever get busted for doing that you talk about it while people are thinking about it.

1:52:05 Sitapati Dasa: Has there been analysis of other indistinct whispers in conversations in vrindaban in 1977..in the last month? ..outside of those conversations?

1:52:34 Dhira Govinda: DG (does not know how to respond, he stalls and glorifies Truth Labs & blusters: "they analyzed many conversations...not just these 23 minutes" but he does not tell us what those conversations were. ... He does a lot of bluffing, diversion tactics, deferrals to Naveen Krishna, and as he attempt to regain credibility, the veneer of his façade starts to crumble.)

1:53:10 Sitapati Dasa: *For me the jury is out on this one...* that's where I am standing on that one.

For this reason I contacted Sitapati proposing that he do a podcast with me so his audience could be more aware of your hyperbole and inconsistent assertions. I was quite pleased when he responded:

"We'd be happy to have a conversation with you on the podcast." - March 24, 2025

Later Sitapati requested via facebook:

"If you want to make a claim that there is another interpretation of what Srila Prabhupada said, then I would want to examine the substance of that claim. Rather than simply saying: 'Well other people say there is different interpretation. Next!' OK, let's see what that interpretation is."

My response to that request was to listen very carefully to the March 25th podcast he produced and respond to him on April 18, 2025. I informed him that his message inspired me to write the article now published on my website. *"Calling the P-Con Bluff"* (<http://jagannatha.com/calling-the-poison-conspiracy-bluff/>)

I waited two weeks for a response then resent a duplicate email on April 24, requesting Sitapati to at least acknowledge receipt of my prior email. I got the impression we would be scheduling a date for the podcase he had said he would be happy to have but he didn't respond to that either. As I paid more attention to the material he subsequently posted on Facebook, it became evident he wasn't as serious about uncovering the truth about the P-Con fraud as I originally gave him credit for. He too had fallen into the contagious Svengali P-Con stupor and appeared to be very comfortable with staying possessed by that trance to some degree.

6 Staged Humility

6.1 Incompatible Behavior

You portray yourself as a humble servant requesting a fair chance for the concerns you have about Srila Prabhupada's final pastimes to be heard, yet you repeatedly fail to behave in a way that is consistent with that request. You claim to have read **DECEPTION** quite thoroughly:

*"Again, I have read your Venom of **DECEPTION** cover to cover, including the section entitled 'What*

Was HDG Communicating?''' -Dhira Govinda Critique of DECEPTION

Yet your 14 page critique makes absolutely no attempt to answer the specific questions addressed in Chapter 11: "Why So Much P-Con **DECEPTION?**" That chapter includes sub-section:11.6.2 "Important Questions Deserve Coherent Answers." These sections provide evidence indicating there is no possible way Srila Prabhupada was poisoned but they also provide you a chance to respond with appropriate counter evidence. This would be required if we met in a court room which, Nico deceitfully boasts he is prepared for:²⁶

*"Nevertheless, we proceed cautiously, careful not to make mistaken accusations in a litigious world **without being prepared to defend them in court.**"*²⁷ -SPHG Chapter168, Paragraph 1

So, why do you avoid the excellent opportunity to plea your case, convince others about the merits of your poisoning allegations by providing good answers to these relevant questions? Instead you chose to just rehash the same absurd, unfounded, and contrived, fantasy world, speculations, Nico uses to fool the gullible. When you avoid answering relevant facts related to the P-Con the implication is you have no good answers to defend the ugly allegations that have been made! This is the reason why the mass majority of devotees do not give any credibility to what amounts to no more than the hallucinations of a bitter, psychotic, eccentric.

Those personally present when Srila Prabhupada departed are well aware of the allegations that have been made and, with the exception of just a very rare few, they universally agree the P-Con is the biggest fraud ever conceived of in Vaishnava history. The conditioning you are subservient to explains why you proudly announce your humility but if you were humble you would realize how you have fallen hook-line-&-sinker for the P-Con Ruse and stop promoting it!

6.2 No Show? You Lose! Strike One!

On page 10 of your bombastic article announcing the premier to the IFSPF-Fibsite you requested:

*"We ask that the ISKCON GBC Executive Committee acknowledges receipt of this letter and packet before October 2nd, 2024, and responds to this letter before November 1st, 2024. We request that you, the GBC Executive Committee, cooperate with the efforts of the Justice for Srila Prabhupada Foundation towards uncovering and revealing to Srila Prabhupada's followers and the world the facts regarding Srila Prabhupada's disappearance pastime. Please let us know before Nov. 1, 2024, whether you, the members of the GBC Executive Committee, are ready to meet and discuss with our team about the subject of this letter and future course of action related to the contents of this letter."*²⁸

You complain that nobody has taking your P-Con concerns seriously and allege that the details about Srila Prabhupadas disappearance have been intentionally concealed.

*"Truth about events surrounding **Srila Prabhupada's disappearance have been concealed, and thus we can appreciate the efforts to reveal them, if not exhaustively, at least***

²⁶ Elsewhere Nico provides a litany of excuses for why he is unable to convince a reputable prosecuting attorney to represent his P-Con fantasy in the courtroom. Indeed: In the paragraph that follows the one cited above, he rationalizes why he can't get the P-Con into a courtroom: "Putting too much weight on a mundane court's ruling would risk leaving the real justice that the Movement needs unserved." le: Sour Grapes!

²⁷ This is another typical delirious, flip-flop, Nico statement. Here he projects an image of confidence, but he has had 20 years to defend his hallucinations in court and it still hasn't happened yet! A more accurate statement that reflects Nico's real strategy to avoid the court entirely is expressed in his own words: "We are **not after court convictions**,"-KGBG 774 The P-Con is dependent on hundreds of contrived accusations and presumptions that cannot defend In court which explains why this ruse will never show up there!

²⁸ <https://justiceforsrilaprabhupadafoundation.org/wp-content/uploads/2024/09/Vital-New-Information-that-Srila-Prabhupada-was-Assassinated-by-His-Caregivers.pdf>

thoroughly and comprehensively... While there are more details to emerge, Nico's book provides a clear picture of what happened." – Dhira Govinda, KGBG p22

Well, I spent over three years taking the P-Con allegations seriously and presented my independent findings which you just brushed aside as irrelevant because I am not career toxicologist. It is the P-Con-Fraudsters who have the reputation for spewing their deceptive spam everywhere while they continue to avoid any form of a civil dialogue to objectively study the facts. The way the P-Con has evolved is by spreading unchecked propaganda wherever it can and then censoring/ignoring any evidence that does not support it. Like most ISKCON-Basher-Fib-Sites, the IFSPF follows that same repressive style of unilateral communication. We pontificate... you listen and accept. No questions will be accepted and no opposition will be tolerated!

6.3 Villainous Avoidance

What makes all of this ever more villainous and revealing is the fact that for nearly five years there has been an open forum where anyone can post whatever they want about the P-Con, pro-or-con without it being censored! On February 13, 2021 Bhakti Vikasa's created a site specifically for the purpose of hosting an open honest exchange and he invited anyone who was interested to participate while the public could observe. A link to that URL has been advertised on the home page of AKINCHANA.NET website since then. It even reassures the cowardly that they need not provide their name to voice their opinion!

Only ONE anonymous individual had the temerity to post something, but you, Nico, Naveen and all the other P-Con loud mouths never made any effort to present your case! This site offered all of you an excellent chance to "...provide a clear picture of what happened..." so why didn't you do that? Ksatria code is that when challenged, if you do not show up, you automatically lose. This policy is still practiced in sports competitions, and in the courtroom today. Your failure to plead your case in a neutral environment is the reason why no civilized person takes the P-Con seriously! When invited to make your case the biggest P-con braggarts run away and hide!²⁹

If your agenda is to find out what led up to Srila Prabhupada's disappearance, then why didn't any of you jump at this opportunity to be heard? There is a monumental difference between the AKINCHANA.NET website and the IFSPF-Fib-Site. The first welcomes everyone to post what they like and does not censor entries whereas the IFSPF petition for like-minded individuals to join their efforts but does not tolerate any challenges to what they blindly allege! The concluding point is that for nearly five years, a neutral place was offered for you to speak your peace, but nobody representing the P-Con-Dark-Side showed up to be heard! Strike One.

6.4 Invitation to Truth Summit Meeting... Refused! Strike Two!

Shortly after IFSPF-Fib-Site published their ultimatum to be heard, Garuda Prabhu personally contacted both you and Naveen Krishna to attend a "Truth Summit" meeting he proposed to host in February of 2025 at Alachua. His plan was to allocate two full days in a university like forum with a cordial atmosphere, that even included prasadam. He proposed a neutral setting arbitrated by non-devotee professionals trained in mediation to review all the available evidence. The plan was to objectively study, evaluate, and carefully consider the full spectrum of available facts for the purpose of finally putting this quarter century battle to rest once and for all. He even arranged for a professional video staff to document the entire Truth Summit and record the proceedings for the public to view at a later date.

It is easy to make up numerous excuses for not posting anything on the open forum Akinchana website,

²⁹ Nico Kuyt was invited to participate in a very serious study of his poison facts circa 2000-2001. Attorney Brian David Westrom attempted to serve him legal papers inviting him to show up in court and defend his slanderous claims. Bast on how much Nico bloviates about all the evidence he has to prove Srila Prabhupada was poisoned, one would think Nico would be quite happy to accept that invitation to show up in court. But instead, he fled to Figi which was an ideal place for him to hide because it is beyond the jurisdiction of the US legal system! Evidence of this is confirmed in the appended of DECEPTION

but this time Garuda made a very deliberate effort to create the ideal environment to honestly review everything about the P-Con that could possibly be arranged at NO COST TO YOU! Knowing that all the involved parties were busy people, Garuda had the foresight to suggest a date three months out so everyone could get it on their calendar with the least disruption. WoW! What a great proposal! This was an ideal opportunity for you to put everything on the table where you could fully expose whatever you felt had been suppressed or concealed by the GBC. Garuda made it clear that the event was to provide you an opportunity to appeal to the entire Vaishna community, and all you had to do was to settle on a date when you could attend. What more could a whistle blower ask for?

Yet despite this magnanimous effort, both you and Naveen always found some trivial excuse for why you could not attend. Behavioral Therapists, of which you are one, know that when something is important enough... people will show up for it even if they have to swim through shark infested water to do so. YOU, with a PHD in Behavioral Therapy know this very well and yet all you could muster is a litany of 25¢ excuses not to attend! Strike Two!

6.5 Neither Vital or New!

The IFSPF is a travesty of false advertising and it raises serious questions about your own mental health! The first article posted on the premier introduction of this site has the sensational headline: ***“Vital New Information that Srila Prabhupada was “Assassinated” by His Caregivers”*** OK... but what is that ***New & Vital*** information you are boasting about?

In that introductory 10 page editorial you present two documents Naveen Krishna contracted Truth Labs Forensic Services³⁰ to provide.

1. A 22 minute, “*follow-the-bouncing-ball*,” video analysis of BBT audio recordings.
2. A “*Salient Features*”³¹ affidavit from Truth Labs

You present these documents to support your believe that the GBC conspired to murder Srila Prabhupada and you share them enthusiastically with the Vaishnava community. But it took five years for Truth Labs to release these documents! Why did it take so long when they boast on their website how they can meet the fast pace of a courtroom and can prepare evidence in less than two months?³²

Upon scrutiny, we discover that Truth Labs did not contribute anything ***New or Vital*** to convince a rational individual that Srila Prabhupada was poisoned! Naveen simply paid them to repackage the same-old, bad, contrived evidence to make it appear more credible!³³

All they did with the controversial BBT audio tapes was clean them up and make it easier for children to follow what was clearly said or allegedly discovered leaking from the audio shadows! Truth Labs added captions to highlight the words as they were spoken so even a deaf person could be effectively misled! For historians and those wishing to confirm this point a comprehensive breakdown of that tape is available in the study called “22 Minute Audio Tape.”³⁴

Following Nico’s mendacious tactics, Naveen also prejudiced Truth Labs by not presenting them any counter evidence.³⁵ These “Experts” didn’t have the integrity to ask for the other side of the story or

³⁰ Headquartered in Hyderabad India with branches in: Chennai, Delhi, Mumbai, Kolkata, Bangalore and an international office in Dallas, Texas USA. Looks like a very impressive organization doesn’t it?

³¹ The full title of this document is: **Salient features of the Forensic Evaluation & Interpretation of Neutron Activation Analysis NAA Reports of Dr. Morris on the Hair Samples of Srila Prabhupada, along with Pharmacopathological and Medico-Legal Assessment Report of August 2024 of Truth Lab** <https://justiceforsrilaprabhupadafoundation.org/wp-content/uploads/2024/09/Salient-features-of-the-Truth-Lab-Final-Report.pdf>

³² Truth Labs boasts: “...the general timeline of a typical forensic investigation ranges from one day to one month, depending on all the procedures necessary.” <https://www.truthlabs.org/docs/how-long-does-a-typical-forensic-investigation-process-take/>

³³ Or some might better understand: “Old Wind in a New Bottle!” Or: “Same Song, Different Tune!”

³⁴ This is available via the document: “22 Minute Audio Tape” <https://jagannatha.com/analysis-of-22-minute-audio-clip/>

³⁵ For Example: Tamal Krishna Goswami testified that his remark was: “*The Swelling is going down.*” A careful study of the timeline also reveals that the other shadow comments do not coincide with when Srila Prabhupada sat up to drink... a few teaspoons of milk! The audible comments recorded on November 8th & 9th have been fully addressed in my book DECEPTION as well as numerous other places and

do any of their own research! They just did what they were paid to do. This explains why it took Naveen five years³⁶ to persuade these technicians to deliver what he contracted them to provide!³⁷

When the “Salient Features”³⁸ affidavit from Truth Labs, is closely studied we discover just how sloppy, unprofessional and bias this document is. They make absolutely NO effort to address the most pivotal questions pertaining to the P-Con³⁹ which isn’t really their fault, because Naveen did not hire them to do that!

The most damning declaration Truth Labs makes is in their stunning conclusion to the “Salient Features” affidavit:

7.1 The *members of the Experts’ Committee, have been of the opinion that the cause and manner of death of Srila Prabhupada was the result of a well-planned homicide by using the toxic metallic poisons, mainly cadmium* and interspersed death arsenic and antimony, without arousing any suspicion, that caused the resultant signs and symptoms mimicking that of natural chronic illness. -Truth Labs Salient Features Affidavit p.7

7 Brain Dead Poison Advocates?

7.1 Speculating is NOT Evidence!

Those promoting this Poison Conspiracy allege that Tamal Krishna Goswami began his dastardly plot to begin poisoning Srila Prabhupada in the Summer of 1976.

“Srila Prabhupada’s first dramatic health attack and serious health decline was July 20, 1976 as he was leaving Tamal in New York, ... MID-LEVEL CHRONIC CADMIUM POISONING?: Yes. This was his condition in between the sub-acute episodes described above. As Dr. Hudson opined: “the exposures to the material must have been small and over a period of months.” -SPHG p.143

When asked how Tamal Krishna Goswami acquired cadmium, and understood how so expertly administer it... all they can produce are wild theories and speculative scenarios which have no convincing value in serious study of what ACTUALLY happened. The most obvious example of the intentional malice being pushed by the P-Con agenda becomes apparent when focus on the details which is apparently beyond the ability of those who keep promoting the poison conspiracy.

7.2 The Challenge

The challenge begins with the assertion that nobody had ever used cadmium to intentionally poison someone prior to 1976. That being the case, the question that must be answered is: How could Tamal Krishna Goswami know the exact prescription and perfect clockwork delivery of cadmium to achieve the deadly results he is accused of accomplishing?

This is a simple question but those promoting the P-Con are too brain-dead to understand it. They find

when objectively studied prove to be just more malicious interpretation propaganda. Truth Labs makes no acknowledgment of ever receiving counter evidence and we led by their nose ring right where Naveen Krishna wanted them to go!

³⁶ Is that how long it took Naveen Krishna to bribe Truth Labs to produce the documents they wanted to support this ruse?

³⁷ Besides convincing Bribe-Labs to produce the paperwork he wanted, it’s reasonable to expect that might have also taken some time to collect the funds required pay for this type of “Special” evidence!

³⁸ The full title of this document is: **Salient features of the Forensic Evaluation & Interpretation of Neutron Activation Analysis NAA Reports of Dr. Morris on the Hair Samples of Srila Prabhupada, along with Pharmacological and Medico-Legal Assessment Report of August 2024 of Truth Lab** <https://justiceforsrilaprabhupadafoundation.org/wp-content/uploads/2024/09/Salient-features-of-the-Truth-Lab-Final-Report.pdf>

³⁹ Mentioned above: DECEPTION, Chapter 11: “Why So Much P-Con DECEPTION?” & Sub-Section:11.6.2 “Important Questions Deserve Coherent Answers.”

rare cases of cadmium poisoning prior to 1977 as a response but such examples do not address the pivotal question. ***How could Tamal Krishna Goswami know what he was doing in 1977 when the medical industry clearly reports they were very uncertain about how cadmium affected the body 36 years later!***

2009 Science Digest, Journal of Trace Elements in Medicine and Biology, Toxicology and Applied Pharmacology, Volume 238, Issue 3, Reports: ***“...these effects (of cadmium) in humans is still subject to considerable uncertainty.”*** ⁴⁰

2014 John Hoptkins Medical University conducts a serious medical study on cadmium wherein they report: ***“We do not know much about what cadmium does to the body.”*** ⁴¹

By refusing to acknowledge the history related to the discovery and understanding of how cadmium affects the body, the advocates of this rumor are proving they are either completely brain-dead, or they have absolutely NO integrity and have any number of different agendas other than properly establishing the events leading up to Srila Prabhupada's final departure.

7.3 History of Cadmium & P-Con Claims

We currently know that people are exposed to a whole spectrum of electromagnetic waves and are consuming microplastics but we do not know what the long range impact these current day technologies will have on our health.⁴² Perhaps 50 years from now research will provide the facts someone could then use to poison their landlord by tainting their milk with microplastics! But right now, nobody would know how to do that. This was the case in 1977 with cadmium. Nobody used it as a poison because we were just beginning to understand it as a dangerous heavy metal element.

Here are the important milestones in the history and use of cadmium. P-Com advocates refuse to openly discuss this because it leaves absolutely NO wiggle room to keep their bad-ship-cadmi-pop afloat!

1817 The German chemist Friedrich Stromeyer discovered cadmium while working with zinc.

1820-1850 Techniques for isolating pure cadmium were developed for industry.

1858 Soviet reported acute gastrointestinal symptoms and delayed respiratory symptoms among persons who inhaled cadmium carbonate powder while used as a polishing agent.

1907 Waldemar Jungner developed the first Ni-Cd rechargeable battery.

1920- Villagers in Toyama, Japan develop “Itai Itai” (Ouch Ouch) disease due to excessive cadmium found in the water used to irrigate their rice crops. (Although nobody knew this until 50 years later!)

1950's - Cadmium is introduced into the commercial manufacturing of paints and plastics as a pigment for producing vibrant yellow, orange and red colors.

1957 A postmortem study initiated by Friberg, 1948-1950 in Stockholm, Sweden was done on a workman who died from excessive exposure of ***cadmium oxide fumes*** which caused renal damage.

1960-1970 A steady rise of kidney & bone disease found in industrial workers is linked to their exposure to air born cadmium .

1976 – Nico alleges TKG knew how to acquire, mix, and administer with expert chemical precision, deadly portions of cadmium for the purpose of ***“Getting Rid” of HDG Srila Prabhupada.***⁴³

⁴⁰ <https://www.sciencedirect.com/science/article/abs/pii/S0041008X09001331>

⁴¹ <https://hub.jhu.edu/2013/05/15/cadmium-liver-disease/>

⁴² We do know that High-frequency, ionizing electromagnetic waves such as ultraviolet light, X-rays, and gamma rays can carry enough energy to knock electrons out of atoms (ionization). This can damage DNA and lead to skin burns, mutations, cancer, and radiation sickness at high doses. However, low frequency radio waves, cell phones, and Wi-fi is currently considered safe.

⁴³ Although Nico's own expert witness Forensic Pathologist Dr. Hudson emphatically confirmed: ***“To administer intentionally this poison in this fashion would call for amazing subtlety and patience.”*** SRILA PRABHUPADA'S CADMIUM

1970-1975 - Cadmium is found in the topsoil of a Village in Shipham, Somerset, England. It was determined that high levels of cadmium were found in earth left there from Roman zinc mining efforts. Residents panicked and environmental agencies were called in to determine if it was safe to live and grown vegetables in Shipham

1979 The National Archives issued a document titled “Investigation into cadmium contamination of soil and vegetables at Shipham, Somerset”, reference MAF 461/85 (FCN 322). The document covers the period 1979-1980 and is one of the first studies done that address the medical impact cadmium can have on the body. A health study of the exposed population in Shipham (548 people) compared with a control population found no significant adverse health effects (once corrected for age, sex, etc.), despite the elevated exposure.

1980's Procedures for regulating the use of cadmium in industry start to appear worldwide.⁴⁴

1992 The World Health Organization in its International Program on Chemical Safety, WHO/IPCS (1992) (Cadmium. Environmental Health Criteria Document 134, IPCS. WHO, Geneva, 1–280.) identified renal dysfunction as the critical effect and a crude quantitative evaluation was presented.

2009 Journal of Trace Elements in Medicine and Biology, Science Digest, Toxicology and Applied Pharmacology, Volume 238, Issue 3, Reports: *“...these effects (of cadmium) in humans is still subject to considerable uncertainty.”*⁴⁵

2014 John Hoptkins Medical University conducts a serious medical study on cadmium wherein they report: *“We do not know much about what cadmium does to the body.”*⁴⁶

2017 After being silent for over ten years, Nico grabs center stage by releasing his new, revised and consistently absurd version of the P-Con. He aggressively spams his 828 page, impossible to read, excessively wordy muster-piece⁴⁷ “Kill Guru, Become Guru.” (KGBG) all over the internet. Nico took over ten years to realize Version 1.0 of his P-Con scrip was too flawed to get the traction he was looking for. In those days the arsenic deposits allegedly found in Srila Prabhupada’s hair were not high enough to convince anyone he was intentionally poisoned. So in Version 2.0 Nico radically upped his game with new allegations that Srila Prabhupada’s hair had 250 times more cadmium in it than what is considered normal!

Due to the passing of Tamal Krishna Goswami in 2003, Bhakti Charu Swami is now cast in the 2.0 script as the new alleged mastermind Villon. From MURR labs, Dr. Morris is portrayed as the heroic physicist who provides the smoking gun P-Con evidence. The public is told that the only explanation for the abnormal readings Dr. Morris reports from his NAA analysis must be due to intentional malicious poisoning.

2000s–2020s – Research has linked cadmium exposure to cancer, cardiovascular disease, osteoporosis, and reproductive issues.

Among the many misleading things Nico publishes the 2017 KGRG E-Spam is this gem:

“I welcome feedback and constructive criticism of my god brothers/ god sisters... Please advise me as you think fit and necessary.” – KGBG p7

I naïvely accepted this as a genuine request for mutual cooperation in determining Srila Prabhupada’s disappearance pastime. That was when, and why, I began my independent study of the available evidence.

LEVELS WERE LETHAL: “Interpretations On Srila Prabhupada’s Cadmium Levels”, Nico’s Website, 2024
<https://prabhupadatruithcommission.org/interpretations-on-srila-prabhupadas-cadmium-levels>

⁴⁴ During the 1950s-1960s available research money was used to study the impact cigarettes had on people who smoked. This led the US Federal government to create laws requiring health warning on cigarette packs (1965), banning cigarette ads from TV & Radio (1967-1971), and restricting smoking from public building and workplaces.

⁴⁵ <https://www.sciencedirect.com/science/article/abs/pii/S0041008X09001331>

⁴⁶ <https://hub.jhu.edu/2013/05/15/cadmium-liver-disease/>

⁴⁷ This is an intentional play on words because KGBG is most certainly not a master of anything, but it is a muster (an assembly) of the most extraordinary fabrications that go in in a very disturbed mind.

7.4 NO Relevant Cadmium Poisoning History!

2020 Both the 55 minute movie and 500 page book version of **DECEPTION** is released on Gaur Purnima in 2020. The title of Section 9.5.4 of the book is: *"No Relevant CD Poisoning History"* and it reviews every case cited in KGBG as given cases of murder allegedly by intentional cadmium poisoning. The intent of the author was to convince the reader that cadmium poisoning was not uncommon in 1977, but no such example is given! Any careful reader can discover this on their own and when you see it, you are left wondering who would offer such an obvious blunders and more **DECEPTION!!**

2022 Nico Publishes a *New-With- Nothing-Improved* version of the 2017 KGBG tirade and gives it the misleading title: *"Sri Lanka Prabhupada's Hidden Glories."* (SPHG)⁴⁸ The contents of this new effort starkly confirms that Nico does not *welcome ANY feedback or advise* if it does not concur with his very prejudicial and contrived P-Con allegations!

What is *extraordinary about this new publication is how repetitive, unconvincing and imprudent this "presented-as-new" propaganda is!* It suffers from the exact same shortcomings identified in KGBG and makes absolutely no effort to remove or address the material confirmed as not true in **DECEPTION!!**

For example: The list of so called examples of *"Cadmium Poisoning Cases"* (Chapter 36) presented in SPHG-2022 includes the exact same hackneyed material originally presented in the KGBG-2017 that failed to provide the evidence promised!

"Knowledge of the means and techniques of poisoning methodologies were readily available in 1977 in modern literatures and medical publications." -SPHP p1 **"CHAPTER 36: CADMIUM POISONING CASES; Fourteen Homicidal Cadmium Poisoning Cases"**

None of these cases offer proof of cadmium poisoning prior to 1977! One need only look at the dates for each of these examples provided below to realize how unreliable the author who presented them really is! That individual believes these cases prove other intentional cadmium poisoning prior to 1977. Really?

1. 1993 Turgut Ozal - Former president of Turkey - Exhumed & Inconclusive causes.
2. 1995 Ivan Kivalidi - Russian Banker, mystery death, toxins on phone suspected.
3. 2007 John Harris Trestrail III allegedly one case but "We do not know who it was!"
4. 1981 Children got sick and blurred vision but NOBODY died.
5. 2002 John Creamer - alcohol, Xanax & cadmium. Dr. Core 1st cadmium case
6. 2019 David Xu,- His victims immediately tasted cadmium in their water & got sick
7. 2019 Imane Fadil - had organ failure but 7X cadmium in blood... speculative no crime!
8. 1986 Robert W Hall - mass murder, suicide, agitation, distress, and restlessness Akathisia,
9. 2018 Yukai Yang - mixed thallium & Cd in drinks, & got roommate very ill but no death.
10. 2018 Klaus O - Poisoned colleagues had kidney & brain damage, vegetative very ill.
11. 2003 Three Pennsylvania family members ONLY Suspicions of Cd poisoning
12. 2019 Al-Zakzaky cadmium found in his blood, no murdered identified
13. 2019 Aslan Bzhania accused political rival of poisoning, mercury aluminum etc. in blood.
14. 1986 17-year-old woman - facial swelling, vomiting white crystals, respiratory arrest etc!

The closest example provided here as proof of cadmium poisoning prior to 1977 occurred in 1981 four years later! It is a reference about two very misguided bratty children who had NO education in chemistry and nobody died! The only rational way to understand the futility of this type of sloppy

⁴⁸ Originally introduced via Amazon gave this doorstopper a veil of credibility, but it also exposed it to customer reviews which could not be tolerated by this author. Besides which it wasn't selling either! So it was removed from Amazon and can now be downloaded for free to anyone mixed up and lonely enough to read this extremely nasty, fabricated drivel

research is to recognize that it comes from the mind of a schizophrenic who is unpredictable, bazar, and not expected to make any sense!

I ask you Dhira Govinda; Why do you, who claims to seek an honest discussion, stand behind this type of irrelevant hokum a second time ESPECIALLY after it has been already exposed as irrelevant five years earlier? But most importantly, why do you pledge your allegiance to this type of madness at all?

“Over time I was able to locate several heavy metals experts and obtain their opinions.” SPHP p2

“CHAPTER 156: ISKCON COVER UPS AND DISHONESTY “

8 Whose Smoking Gun?

8.1 Buying Truth from Truth Labs?

The IFSPF-Fib-Site refers to the affidavits produced on September 16, 2024 as “*Vital and New*” although we have shown them to be neither! None-the-less, they are presented with the same bluster that Dr. Morris’s NAA analysis as presented. Yet nowhere are the disclaimers Dr. Morris gave when he was doing his tests every shared by the P-Con boys!

Dr. Morria MURR Labs DISCLAIMER...

“External contamination cannot be completely ruled out without a detailed history of the sample; but one can search for possible sources of external contamination. In the instant case: I now have checked the containers the samples have been stored in and find no evidence of significant contamination sources for arsenic, cadmium, antimony, or mercury.”

Kill Guru Become Guru (Book One) Page 204

Why do you go out of your way to keep Dr. Morris’s disclaimers out of the discussion about his NAA Evidence if you-all are so “Honest!”

8.1.1 The Omitted Disclaimers from Dr. Morris

Dr. Morris issued the following disclaimers in regards to the results reported in his NAA report:

- A. ...he explained that each element required a different setting for optimum measurements.
- B. ...he tells us the reactor was set to detect arsenic, not cadmium.
- C. ...he tells us the parameters used for cadmium are not as favorable as they are for arsenic.
- D. ...he acknowledges the exceptionally small size of the samples he was provided.
- E. ...he states: “with cadmium we cannot detect a normal level in these small samples”
- F. ...he admits he stumbled upon the cadmium readings.
- G. ...he tells us he was “refining his testing techniques”
- H. ...he states the large uncertainty is the result of the small sample mass (0.00012 grams)
- I. ...he tells us he increased the neutron activation to more radiation than “normal”
- J. ...he reports that the vials used to hold the samples had a minute presence of cadmium.
- k. ... he specifically said: "DO NOT RULE out the possibility of EXTERNAL CONTAMINATION

It should also be pointed out:

- A. Dr. Morris should have been consulted prior to jumping to the conclusion that his reports “Prove” intentional murder!
- B. This was the first time MURR equipment was used to analyze hair.
- C. The samples Dr. Morris received were 1/80th the normally required size.
- D. The NAA process is lauded for analyzing samples without destroying them.
- E. After the report was issued, Nico reports that the samples were destroyed!?

- F. NO explanation has been provided for why the samples were destroyed or lost!
- G. Dr. Morris's was under a gag order to communicate exclusively with Nico and nobody else. This poses a big problem because Nico has a published record of lying under oath in Superior Court, on more than one occasion! The propaganda Nico has published confirms that he has misrepresented Dr. Morris's concerns related to the outcome of his hair study analysis.
- H. There have been no double-blind tests to confirm the results reported by Dr. Morris.
- I. There has not been any cross-examination from other experts in NAA process about the methodology used by Dr. Morris.
- J. At the time of Bhaktivedanta Swami's passing, in 1977, there was no record of cadmium being used as a poison by anyone to intentionally murder someone!
- K. Cadmium was not classified as a poison by any of the world's regulatory agencies in 1977.
- L. How could a resident devotee know how to mix, evaluate, & administer cadmium poison with clockwork accuracy?

No other 2nd test has even been requested to confirm that what Dr. Morris reported is accurate! You immediately jumped to the venomous accusation that Tamal Krishna Goswami murdered Srila Prabhupada without first confirming the reliability of the results provided by Dr. Morris! Even Dr. Pillay would insist on that as a toxicologist!

Double Blind Testing Imperitive! How is it that you have such abnormally high levels (of cadmium) and you are not only surprised but flabbergasted? How is it a person survive with such a concentration in his system?... Double testing should have been done, and preferably *the 2nd test should not have done by the same laboratory, but by another accredited laboratory* where I told you the thing should have been blind. ... I don't find that a second laboratory was involved... *I am not very convinced that this is actually reflective of high concentration of cadmium of this kind of person's body which contributed to his death.*

Dr.V.V. Pillay - Head of Analytical Toxicology AIMS, Cochin, Kerala

This is hardly the behavior of an honest man and it a form of criminal negligence, defamation and slander considering all the disclaimers listed above that he issued virtually begging that his work is cross checked.⁴⁹

Another unanswered question is why did Nico made it impossible to conduct a second testing by deliberately destroyed the original hair samples which remains intact under NAA analysis?

*"Besides its high sensitivity, NAA's **potential for nondestructive measurement** provides the further advantage that the samples which are measured can be preserved **for production in court or for further tests.**"⁵⁰*

The same type of very suspicious and calculating behavior is evident in how often you evade the tough questions from Sitapati by just deferring to how sophisticated, professional and expert the reputation of Truth labs is:

*! :48:17 ...there is **audio forensics voice print analysis**...the whispers...*

*! :49:39 (this **audio technology**) is as sophisticated as it gets...*

⁴⁹ When we look closely at the way Nico dominated the interface with Dr. Morris it is very reasonable to assume the good doctor perceived what Nico's agenda was and how unstable he is. Bring well educated he was wise enough to understand the unpredictable nature of a unchecked narcissist so he was very careful not to provoke that while still being careful to protect himself and the reputation of MURR labs by releasing all the disclosures along the way. Now it is our responsibility to heed the cautions he provided because it is very clear that you, Nico, and Naveen are doing all you can to keep the public from knowing about them!

⁵⁰ -Dennis S. Karjala, "Comment, the Evidentiary Uses of Neutron Activation Analysis", California Law review 59, http://papers.ssrn.com/sol3/papers.cfm?abstract_id=1438160 997,

1:52:23(stalling)umm.. **I know that Truth labs analyzed many conversations...not just from that time period, not just these 23 minutes... umm, you know, so it's how much I know Truth Labs spend hundreds and hundreds of hours on this..**

1:52:54 you asked me.. so here is what it is... **here is the forensic evidence**

2:08:25 **Toxicologists have analyzed hair samples⁵¹ and concluded on average 250 times cadmium above normal. Top forensic toxicologists.. concur that the only reasonable explanation is deliberate homicidal poisoning.⁵²**

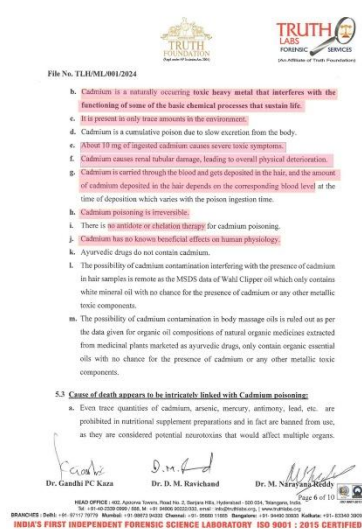

2:12:07 so again, **world class forensic laboratories I'm going to say like forensic professionals, I mean like when these for example when the top courts want an expert witnesses they will call these professionals**

2:13:40 and so, **At some point these top forensic scientists they decided, they didn't think to test for cadmium at first, then they thought lets now test for cadmium. .. and wow... that's what happened...**

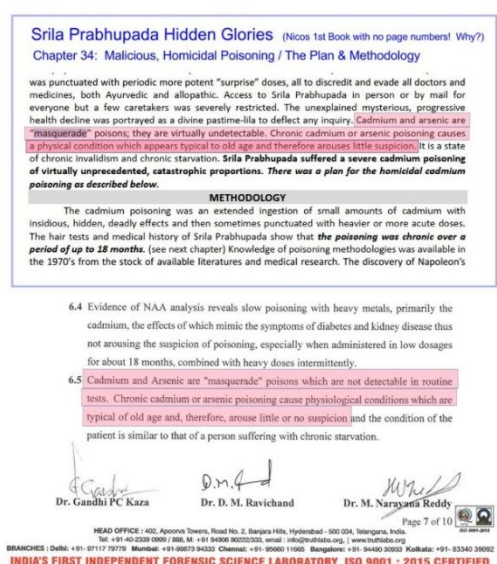

What you do not disclose to your audience is all the long numerous phone calls Naveen Krishna paid and manipulating Truth Labs to provide these so-called expert, top, sophisticated, irreproachable documents! These type of details that you omit is what distinguished people with integrity, from cheaters who are willing to do whatever they must, to get whatever they want, when they cannot obtain it honestly.

When we scrutinize the Truth Labs "**Salient Features**" document you praised so highly, we discover the shocking truth of who really authored the content found therein. The Truth Labs document is indeed a smoking gun, but not for proving the P-Con. What it proves is that Naveen just gave them material written by Nico, and then bribed the so-called honest experts at Truth Labs to endorse it with their big pink rubber stamp logo!

As proof of this I took the time to provide a detailed line-by-line comparative study where this plagiarism becomes very obvious. This fully exposes how Un-Truthful, your forensic "experts" are, how devious Naveen Krishna is and how cunning, manipulative and dishonest you have become!⁵³

reached. further to this, we note that poisoning by arsenic, since it is quickly excreted, requires regular doses, whereas poisoning by cadmium, being cumulative and with a half life of 17-30 years, can have a long and quiet latency. (2) Cadmium is so poisonous that even 10 mg ingested has caused severe toxic symptoms. (Rumack BDI: Poisindex Information System) A lethal dose is about 0.5 gram or 50-60 mg cadmium, less than the 300 mg arsenic required in the weight of a small postage stamp. This translates to 0.035 grams or 0.002225 ounces. Cadmium is a general metabolic poison and competes (replaces) with zinc, disrupting essential biological processes. Ingested cadmium is primarily deposited in the kidneys and liver, with a very limited amount being carried by the blood and excreted through the urine. Since the amount of cadmium deposited in hair depends on the blood level of cadmium, hair cadmium is like the tip of the iceberg as to the actual total body burden. (4) A 2000 study in Belgium by Mx Vianen et al stated that "Animal studies have shown that cadmium is a potent neurotoxicant". To cumulative toxic effect simple deposits on the amounts ingested. (5) The target organ for cadmium toxicity via oral exposure is the kidney. Cadmium causes irreversible renal tubular damage, which progresses into complete Fanconi syndrome with decreased tubular reabsorption of proteins, glucose, amino acids, calcium, phosphorus, with decreased ability to acidify, concentrate the urine. (6) Renal tubular dysfunction and proteinuria (in kidney) results in overall physical deterioration. Rather than assimilate nutrients, minerals and proteins, the kidneys allow them to pass out with urine, with whatever stores are already in reserve. Leaching due to sufficient cadmium poisoning (protein, sugar spilled in the urine) denies the victim any sustenance and slow death follows with the appearance of malnutrition, starvation, indigestion, diarrhea, vomiting, stomach pain, etc. (This was exactly Srila Prabhupada's condition...see medical history) (7) Cadmium therapy and no antidote. Cadmium has no known beneficial effect on the human physiology. (8) Daily excretion of cadmium is about 0.01% of the total body burden; cadmium has a half-life in the body of 17-30 years (how long to excrete half of what is in the body). Cadmium half-life in the blood is 2-4 months, which is deposited in the hair as it grows. (From ncbi.nlm.nih.gov/pmc/articles/PMC556182) (10) Normal cadmium concentrations in the adult kidney cortex is about 50 ppm and when it reaches 200 ppm a critical threshold is reached wherein the body no longer can manage it, and disease then develops, including serious kidney dysfunction and failure. (Srila Prabhupada's condition, exactly) (11) Cumulative effects of cadmium continue after exposure ends, disease then tends to be progressive. Once sufficient cadmium is chronically ingested, death will follow from disease progression. (12) Long-term chronic cadmium poisoning results in various bone diseases, and prostate and lung cancer are also suspected. The liver and cardiovascular system are also adversely affected by cadmium. (13) Cadmium intake is distributed widely in the body but accumulates mostly in the liver and kidneys. It binds to protein and non-protein sulfhydryl groups and various macro-molecules such as metalloenzymes, affecting especially the liver and kidneys. (14) Because the toxic effects of cadmium are a function of a critical concentration being attained in the kidney, similar effects will occur following long-term poisoning at low levels and short-term poisoning at high levels. Kidney and liver toxicity can occur with toxic cadmium levels accumulated even by sub-lethal exposure. (15) It was not recognized by so many "short-term" doctors (16) Breathing difficulties and emphysema develop in longer exposures, as much as 10 years later at low-level chronic levels. The lungs, before Srila Prabhupada's departure, some doctors were focused on his lungs, and this is consistent with cadmium poisoning symptoms. (16) The IARC regards cadmium as cancer-causing due to chromosomal alterations in the blood lymphocytes and lesions in the central nervous system, liver, and kidney, and causes eosinophilia, a blood disorder. (17) Cadmium is one of the most dangerous environmental nephrotoxic agents, causes loss of hearing/eyeight, kidney stones and decreased density/weakness in bones, and alters calcium metabolism. Arsenic, lead, mercury (cadmium) and antimony are naturally occurring toxic heavy metals which interfere with the function of the basic chemical processes that sustain life. (18) It is present only in trace amounts in the environment.

You gave the following pledge but this research shows how your credibility has completely collapses just like Nico's has for the same reason.

⁵¹ Dr. Morris is NOT a Toxicologist, he is a physicist! He warned NOT to eliminate possibility of External Contamination!

⁵² Which top forensic toxicologists are you referring to & where is their affidavit or when did they testify?

⁵³ TLabsNico 8 Clauses.pdf & TLabs One Big Clause.pdf

"I will work to ensure that a fair and professional investigation is conducted." -KGBG p109

Neither you, Naveen, or Nico have been fair or professional about any aspect of the P-Con controversy!

9 Maturing Past Utopia Dreamland

"Regarding the other matters, a difference between Godbrothers is natural. That difference of opinion will continue, what can be done? ... So it is a natural thing for the brothers to fight, as long as they all stay obedient to the father." (SPL to Bhurijana dasa, 11th September, 1975)

9.1 Profound Example

No matter how bad you choose to characterize those who offended you, it is insignificant to the mass killings, torture, imprisonment and cultural genocide the Chinese waged against the monks, nuns, and peaceful citizens of Tibet. The whole world knows how cruel China has been in Tibet, yet the Dalia Lama understand the important principal of NOT allowing the misbehavior of others ruin his consciousness. When asked how he endures such travesties on the people who love him his response was:

268 *The road to happiness is rigged with land mines. **These are destructive emotions that cause pain and suffering** and can be triggered at any time by people whose minds are not trained to **apply antidotes to overpower the negative with the positive.***

135 *If the mind is dominated by hatred, the best part of the brain, which is used to judge right and wrong, **does not function properly.*** <https://travishellstrom.com/dalailama>

Dhira Govinda, you could be a 100 times more affective working cooperatively with ISKCON then in supporting the ugly agenda of those who hate ISKCON! Your real challenge is not building your own Satvatove empire, but in looking at how your pride has engaged you in so many dishonest and deceitful activities for the purpose of waging war against ISKCON. Nico relies on poorly educated sycophants to inject his vindictively motivated mistruths wherever he can thrust them into social media. But you have the potential to offer so much more than his twisted distortions of reality. You need not lower yourself into the world of rationally-crippled audiences to define who you are. Krsna has given you badly needed valuable talents but you run the risk of losing it all if you continue to blaspheme Vaishnavas which you remain in is gross denial about and flagrantly disregard:

*"Some people assume that it is not an offence to criticize a sādhu who has engaged in an objectionable activity, because one is only stating facts. But Śrīla Śrīdhara Svāmīpāda has written in his commentary on the 208 Third Shower of Nectar – Text 2a Śrīmad-Bhāgavatam, "nindanam doṣa-kīrtanam – **whether the criticism is based on fact or not, the vocalization of a saintly person's faults is nonetheless counted as nindā (blasphemy).**" -Narrotam Dasa Thakura, Madhurya-Kadambani, Third Wave, p. 208.*

You can save yourself from the Mad Elephant offence and the disgraceful reputation you are getting from the aggressive opinionated insults you are publishing on the IFSPF-Fib-Site with a long overdue maya-culpa. There is no shame in acknowledging how your intellect has been severely crippled by years of associating with the misfit Nico. Doing so would be very self-redeeming and what a truly honest individual would do to break the tiger-tooth Svengali Trance you have been bitten by!

For 25 years Nico repeatedly incorrectly claimed that Srila Prabhupada said he was poisoned, not just once, but three times:

*"Our records show that Srila Prabhupada said something else, namely **"Someone has poisoned me," three times,**"* -KGBG 281

You are so bitter you just blindly believe and repeat this rancorous propaganda without checking to see if it is an accurate statement! When I began studying the poison allegations, I had no idea how mentally unstable Nico was but I did give him the benefit of the doubt and trusted him when he said:

“I am open to being corrected and chastised by anyone. I have tried not to be prejudicial in this presentation of evidence, and I ask for pardon if that has not been accomplished.” -SHPM 292

However, I almost immediately discovered that this just disingenuous posturing to gain credibility. The evidence was pouring out everywhere that Nico would misrepresent any facts that did not support his world-attention-getting P-Con-Script. It rapidly became very clear that I had to check virtually everything he presents because 50% of the time it is either taken out of context, wrong, or fabricated to suit the story he was telling. The **DECEPTION** was so ubiquitous it became apparent that would be the title for my book! The name emerged from repeatedly uncovering numerous examples of intentional DISHONESTY used for the very purpose of trying to prove an impossible crime that was committed!

10 Dhira Govinda: Tear This P-Con Wall Down!⁵⁴

10.1 When you can't win... Attack!⁵⁵

“Whatever you may do, please do not attempt to criticize or blaspheme the Vaishnavas. This is my humble request. After all, in a debate one must adhere to the topic at hand, not indulge in vaishnava-ninda, blasphemy of the Vaishnavas.” – Jaiva Dharma, Cp.6 Nitya-Dharma

The unfounded prejudice you have expressed towards me doesn't negate the relevance of the facts I have established. In a futile attempt to avoid addressing these essential points you have resorted to cheap, ad hominin attacks. Everyone knows that dismissing others with snarly insults is what losers do when they cannot defend their beliefs. You began that campaign in your letter to me dated October 24, 2021.

“... as far as I can perceive, the ISKCON Governing Body Commission doesn't consider your book to be an effective attempt to counter the allegations that Srila Prabhupada was given poison by persons with venomous motivations. If the GBC regarded your book as doing an adequate job of refuting the evidence that indicates that Srila Prabhupada was given poison by persons with homicidal intentions, then, I believe, the GBC would have announced, “Here's our response, that we promised in December 2017...”. But, they haven't done that, and neither have they issued any other response- again, as far as I'm aware, and I'm ready to be shown to be mistaken.” -Dhira Govinda Email to mayesvara October 24, 2012

It was only a matter of time until ISKCON did recognize the independent professional analysis I did the identifies much of the **DECEPTION** behind the P-Con. On April 25, 2025 the head Minister of ISKCON communications Anuttama Dasa reported in a formal press release:

*“In addition to the GBC-commissioned studies, Mayesvara Dasa, a disciple of Srila Prabhupada spent five years investigating the allegations, resulting in his book **DECEPTION** (2020). This study surveys all the available information and provides compelling alternate*

⁵⁴ It is already crumbing so why not get on the right side of it instead of becoming a casualty?

⁵⁵ “When you have no basis for an argument, abuse the plaintiff.” — Marcus Tullius Cicero was a Roman statesman, lawyer, scholar, philosopher, orator, writer and Academic skeptic, who tried to uphold optimate principles during the political crises that led to the establishment of the Roman Empire. His extensive writings include treatises on rhetoric, philosophy and politics. Born: January 3, 106 BC Assassinated: December 7, 43 BC,

explanations for the 'evidence' cited by the proponents of the poison theory.” - ISKCON Communications, April 25, 2025

Four months later the ISKCON India Scholars Board released a similar endorsement fully acknowledging the validity of the research I did and the idiocy that proponents of the P-Con fraud continue to deny and express today:

*Moreover, Mayesvara Dasa, a direct disciple of Srila Prabhupada, **has authored a comprehensive book rebutting the poison conspiracy. The book's title is **DECEPTION** (2019), and a key argument in his work is the historical improbability of the claim, noting that in the 1970s, cadmium—a heavy metal allegedly used—was not known at the time to have been used in any deliberate poisoning cases worldwide. The notion that Prabhupada's young attendants possessed the knowledge or means to employ such an obscure method is absurd, as Mayesvara demonstrates. Those interested in a deeper exploration of this controversy may request a copy of Mayesvara's book for further details.***

In the spring of this year (2025) you attempt to embarrass the GBC for even referring to my work by pointing out that I lack specific credentials.

*“Moreover, the GBC's reliance on the book **DECEPTION** (2020) by Mayesvara Dasa as a credible source is wholly misguided and, frankly, absurd. Mayesvara Dasa possesses no qualifications as a forensic expert, crime investigator, legal professional, or prosecutor. His commentary lacks both scientific and legal foundation, and his involvement represents yet another attempt by the GBC to mislead devotees and suppress a thorough and impartial investigation into the alleged poisoning of Srila Prabhupada.”*

– Thursday, May 15, 2025 <https://justiceforsrilaprabhupadafoundation.org/vlogs/>

Releasing a statement like this makes you appear very uninformed, literate and desperate. **Steve Jobs** (Apple), **Bill Gates** (Microsoft), **Mark Zuckerberg** (Facebook/Meta), **Michael Dell** (Dell Computers) & **Larry Ellison** (Oracle) all dropped out of college and are far more successful than you.

Would you be as quick to characterize them as not credible sources also?

When Druta Karma published *Forbidden Archeology* in 1993 he exposed the fraud committed by paleontologists who were on a mission to establish evolution as a scientific fact using fossils. Shortly after his landmark book was released Richard Leaky⁵⁶ wrote Druta Karma and attempted to do the same thing you have done by discredit the damning evidence he published. Richard Leaky verbally assaulted Druta Karma with disparaging comments that are very similar to yours:

*“..a quick glance at some pages (of *Forbidden Archeology*) suggests to me **that your book is pure humbug and does not deserve to be taken seriously by anyone but a fool**”⁵⁷*

All this letter did was document Mr. Leaky's blind, prejudicial, professional bias. The larger body of objective archeologists immediately realized that Druta Karma had exposed something very historically important. Once that happened Druta Karma got recognized as a leading expert and has been invited to speak at universities all over the world since then! He is now acknowledged as a valuable source in helping unbiased paleontologists properly understand what the whole rock record reveals! Considering these points, your statement makes you sound wholly misguided and juvenile!

Just for the record you should take note that I have an MBA in technology, I am a Certified Data Processor, I worked for the Naval Surface Warfare Center in Port Hueneme for nearly thirty years, and I have a secret clearance from the Department of Defense. But why should any of that matter to you who so readily accepted what you consider to be gold in the garbage heap of Nico's very troubled

⁵⁶ Richard Leakey is the son of the famous paleontologist Louis Leakey (1903-1972) who made a name for himself by attempting to use the fossil record to confirm the theory of Evolution as a scientific fact.

⁵⁷ Letter from Richard Leakey to Michael Cremo, (Drutakarma) on November 3, 1993 – Cited in: *Forbidden Archeology IMPACT* by Michael A. Cremo, Chapter 4. Selected Correspondences, p349.

10.2 Advance Degree Not Required to Spot Buffoonery!

Over 100 billion US dollars are spent annually on vitamin supplements by people who have little or no formal training in medicine. There is also a huge market for organically grown foods because a PHD is not required to understand the need to eat healthy, nutritious foods not contaminated with pesticides. One does not need a formal education to understand that food poisoning often leads to nausea, violent stomach cramps, and in severe cases vomiting.

Similarly, just a little basic biology is all it takes for an objective layman to understand that Srila Prabhupada could not have been poisoned by Cadmium as alleged. This fact alone confirms that those promoting the P-Con are committed to causing as much havoc as they can to Lord Caitanya's IS-KCON branch of the sankirtana movement. If they are not aware of that then they have no common sense and are complete buffoons!

10.2.1 Cadmium Sankya

P-Con advocates are quite smug about claiming that 250X what is normal levels of cadmium was allegedly found in Srila Prabhupada's hair and is irrefutable scientific proof that he was maliciously poisoned:

"Average normal cadmium level in human hair is 0.064 ppm. Srila Prabhupada's 15.73 ppm cadmium average in 3 tests is about 250 X normal... 10 These levels of average 15.73 ppm cadmium in hair could only come about by a deliberate, malicious, homicidal poisoning through food or drink, via cadmium salts which are water soluble, tasteless, colorless, and look like sugar." – Wednesday, December 4th, 2024, <https://justiceforsrilaprabhupadafoundation.org/vlogs/>

This is convincing propaganda to those who have absolutely NO understanding of what happens to food after it is swallowed⁵⁹ and enters into the gastrointestinal tract.⁶⁰ For the ignorant P-Con'ers in that category we will explain what that process is when someone ingests cadmium.

After it enters the esophagus, it proceeds to the stomach where 90-95% of it just passes thru the body and is eliminated in the feces fairly quickly. The little that is left enters the bloodstream which gets passed thru the kidney that then starts filtering it out as an impurity. Those impurities are routed to the bladder where they get excreted in the urine within 24 hours. Meanwhile the blood also passes thru the liver where it metabolized (neutralizes toxicity) foreign matter (the cadmium) found in the blood. This means that the hair only gets exposed to an extremely tiny portion of the cadmium originally consumed for just a few hours after it is ingested.

10.2.2 The Science

It is not fair, logical, or honest for you to dismiss that which you do not understand. This is the chemical/biological formula required to achieve a concentration of cadmium 250 times higher in the hair, then what is "Normal" {0.5 (µg/g)}. The calculation is:

$$0.5 \mu\text{g/g} \times 250 = 125 \mu\text{g/g} \quad \text{or} \quad 0.5 \mu\text{g/g} \times 250 = 125 \mu\text{g/g}$$

- 3.1 ⁵⁸ Those who do not know me have every right to ask understand my background and what I have done with my life. For that very reason I produced an illustrated meme that compares Nico's criminal background to my professional career. It can be found under: **Compare Authors** <http://jagannatha.com/compare-authors-credibility/>

⁵⁹ 1. Ingestion 2. Digestion 3. Absorption 4. Transport 5. Excretion

⁶⁰ 1. Mouth 2. Esophagus 3. Stomach 4. Small intestine 5. Colon 6. Rectum/Anus

If you did this math, then please provide it to show how it supports your statement: “These levels of...cadmium... could only come about by a deliberate, malicious, homicidal poisoning”

If you have NOT completed the calculation, then it appears once again that you are blindly repeating what others have said without first confirming if it is true,... and in this case even possible! This is where the help of an expert witness can assist us in understanding:

“What would be the cadmium prescription Srila Prabhupada would have to follow for his hair to retain 250X more cadmium deposits in his hair than is normal?”

Where all of this gets very technical is the fact that our bodies are NOT all the same. Therefore, the calculations necessary to answer this question requires that we assign averages to the influencing variables before we can do the math and get a ballpark answer to this most important question! Therefore we will complete the math using the following average assumptions:

1. Normal Cadmium Levels in Hair: 0.5 micrograms per gram ($\mu\text{g/g}$)
2. Target Cadmium Levels: $0.5 \times 250 = 125 \text{ } \mu\text{g/g}$
3. Average gastrointestinal absorption rate of cadmium: 5%.
4. Excretion Rate: Very slow biological half-life 10-30 years. (Assumed negligible.)
5. Hair Mass: Between 100 grams to 150 grams. We'll use 125 grams.

After applying these assumptions the calculation can now be made:

$$\begin{aligned} 125 \text{ g} \times 125 \text{ } \mu\text{g/g} &= \\ 15,625 \text{ } \mu\text{g} \text{ (15.625 mg)} &125 \text{ } \mu\text{g/g} \times 125 \text{ } \mu\text{g/g} = \\ 15,625 \text{ } \mu\text{g} \text{ (15.625 mg)} & \end{aligned}$$

Required Ingested Cadmium =

$$\frac{15.625 \text{ mg}}{0.05} =$$

312.5 mg/milligrams

What the science of chemistry and biology tells us is the hair would have to be exposed to 312.5 milligrams of cadmium for it to absorb levels 250 X more than what is commonly found in the average person's hair! We have already established that if someone were to simply swallow 312.5 milligrams of cadmium, 95% of it (296.9 mg) most of it would just pass right out of the body and only 15.6mg would enter the blood stream. The kidney and liver would then start the process of removing it from the blood. An expert toxicologist would intervene at this juncture to inform us that ingesting even **50–100 mg** of cadmium chloride would be acutely toxic and be considered a medical emergency that could lead to immediate death!

So with this understanding, how could Srila Prabhupada's hair ever accumulate such abnormal amounts of cadmium as alleged by the P-Con-Prophets?

10.3 Another Smoking Gun Backfire!

A toxicologist would confirm that for hair to accumulate 250 X normal cadmium levels in the hair, the blood would have to deliver it, non-stop, at very high levels for a prolonged period. Depending on the specific values that we used to complete our calculation it is estimated that Srila Prabhupada would have had to drink 12 oz tumblers of milk laced with a massive amount of cadmium every 24 hours for as much as a year! Yet the P-Con story is :

“...a prolonged ingestion of small amounts of cadmium”⁶¹

Srila Prabhupada's personal nurse Abhirama prabhu testified⁶² that on the rare, intermittent occasions

⁶¹ METHODOLOGY: Interpretations On Srila Prabhupada's Cadmium Levels, Nico's Website, 2024
<https://prabhupadatruthcommission.org/interpretations-on-srila-prabhupadas-cadmium-levels>

⁶² Abhirama Prabhu's testimony is so profound and convincing that he is the ONLY person who was invited to do two consecutive interviews on the most popular Vaishnava Podcast known as the “Namrasa Early Morning Show.” Episodes 183 & 184 are so compelling that only heartless victims of the Svengali trance attempt to discredit him with a variety of pejorative comments and dismissive assumption. I would advise those still on the fence about the P-Con please watch this total of (2:01:58 + 1:29:45 = 3:31:43) minutes of direct testimony from a person who was physically there if you want a clear understanding of what happened and why the informed completely

when Srila Prabhupada could consume anything, it was just a few teaspoons of milk fed to him like a mother feeding their baby child!

Even a prime fit young man could not endure the vigorous routine required to deposit such large volumes of cadmium in his hair for even a week without going into convulsions! The purveyors of the P-Con have triumphantly pranced around telling the world that the high cadmium levels scientifically proves their allegations,... and indeed it does! But what they scientifically proves is how their allegations are not even possible! Even Nico admits that there has never been any study done showing such high reading of cadmium in anyone's hair ever before!

(21) No studies were found with living subject's hair having anywhere near 16 ppm. ⁶³

10.3.1 Reality... There are NO Cases!

Just as there are NO cases of anyone being poisoned with cadmium prior to 1977, there are not any cases, anywhere, of anyone accumulating 16 ppm of cadmium in their hair! The science tells us that no one could endure the massive amounts of cadmium one would have to consume for it to show up in their hair 250X greater than normal.

The gullible will fantasize about how mystical Srila Prabhupada is and how his P-Con-Lila is more proof of how he did the impossible. He did what was never done by anyone else but that tends to confirm how they fail to uphold the principal of refraining from intoxications! Sober devotees will understand the claims of 250X cadmium AS IT IS, just more reckless propaganda required to keep the P-Con alive. The allegations of massive cadmium deposits is a medically impossible condition and when one understands that, then they are done with this stupid P-Con gossip. The 250X allegation is the smoking gun which proves how unscientific and devious the entire P-Con-Scandal really is! Even simpletons can understand this important point and they don't need a high-dollar, expert toxicologist to confirm it!⁶⁴

11 Final Plea:

You yourself have body declared:

"Still, it is mistaken to think that faith in Srila Prabhupada and his movement will flourish on a foundation of concealment and deception. Sincerely, Dhira Govinda das" -KGBG p761

I am sure there have been some inappropriate behavior you can point towards within ISKCON management and I know of no one who would disagree with this statement. You may still be under the trance that there is COMPELLING evidence to conceal a plot to poison Srila Prabhupada... but if you continue to cling to this delusional Idea, then I am left to retreat with the conclusion:

"To argue with a person who has renounced the use of reason is like administering medicine to the dead." — Thomas Paine

I have taken a lot of time to provide very specific examples that illustrate the numerous ways you have concealed information and are deceiving innocent souls for your own selfish retaliatory reasons. Some from your circles do not describe you as an ISKCON hater, but your writing and choices confer that you believe ISKCON are how terrible, nasty and corrupt the people! In the two book SBHG series your mentor

reject the P-Con allegations as just vindictive vomit! Part1: <https://www.youtube.com/watch?v=E3t7FZmS4FE> PartII: https://www.youtube.com/watch?v=_fSTdETQEF&t=2683s

⁶³ SRILA PRABHUPADA'S CADMIUM LEVELS WERE LETHAL: Interpretations On Srila Prabhupada's Cadmium Levels, Nico's Website, 2024 <https://prabhupadatruithcommission.org/interpretations-on-srila-prabhupadas-cadmium-levels>

⁶⁴ The obstinate will be happy to learn that as this is being written, ISKCON has retained a very reputable toxicologist to confirm the principles explained herein. His is being consulted to illuminate the extensive DECEPTION that has been used to keep the ugly, unfounded P-Con alive for so many years!

Nico has vigilantly listed a whole litany of offenses and every spot of dirt he can find in ISKCON. I am sure everyone admits that we have a need for a lot of improvement and cleaning up to do. But as ugly as it is, regardless of how many children were abused by a handful of individuals, that IS NOT evidence that anyone plotted to murder Srila Prabhupada!

You either understand and respect this important legal point of law or you don't. You either accept the instructions of our great acharyas, or you continue with your untamed arrogance thinking you know better than everyone else and dig yourself further into the same pathetic ditch where ISKCON-Bashers launch their criticism and belittle everyone else instead of working on their own traumatic conditioning!

*"The scriptures state that even if reprobates, cheaters, hypocrites, pretenders, outcastes, and worse take up devotional service, needless to say they are still considered to be sadhus. **They must not be criticized for their past, however terrible it may have been, and they cannot be barred from being accepted as Vaisnava devotees, nor can their devotion be deprecated.**" - Madhurya-Kadambani - Srila Visvanatha Cakravarti Thakura, Third shower of nectar, Blaspheming a Saintly Person Is Deadly*

11.1 Your Choice

So I am appealing to you as your well-wisher an request that you do one of the two following things.

1. Accept the offer to come meet with ISKCON representatives to make your case, and demonstrate to the world that you are actually committed to put this dispute to rest based on all the facts that are available to evaluate in a sober unthreatening atmosphere.

OR:

2. Rotate again another 180 degrees back to your original realization that the whole P-Con is simply a ridiculous unfounded rumor. This of course would require such a firm conviction that you would voluntarily cease and desist from promoting any more P-Con propaganda and to completely take down the IFSPF-Fib-Site.

The choice is yours. You can do the magnanimous thing and decide to cooperate with the senior devotees and work for reform from within ISKCON like a civilized gentleman, or you can continue to hang out with illustrious ISKCON-Bashing souls like Nico & Tim Lee. You can tell everyone you meet that you are saving ISKCON the same way the odious Krishna Kanta Desi considers his ISKCON-Reform work is doing, when in fact his fish wrapping tabloid is more appropriately referred to as "Back To Aparadha. This is what megalomaniacs do, not humble servants to the brahmins"

Those not under the Svengali trance see how you are being controlled by the modes of darkness and dictated by wounds that remain unhealed from many years ago.

*"Devotional service executed by a person who is envious, proud, violent and angry, and who is a separatist, **is considered to be in the mode of darkness.**" - SB 3.29.8*

I wish you well and pray that your good nature is fully restored and you change your focus from the negative human conditioning that infects everything in Kali Yuga, including ISKCON, to the wonderful things that can be achieved by those who fully trust in the KC process.

*"The devotees of the Lord are so forbearing that **even though they are defamed, cheated, cursed, disturbed, neglected or even killed, they are never inclined to avenge themselves.**" - SB 1.18.48*

ମିତ୍ର ମାୟେସ୍‌ବରା ଦାସା ଚନ୍ଦ୍ର...

I hope this meets you in good health and ongoing memories of The Supreme Personality of Godhead!

I remain your well-wisher and hopefully a restored friend!
